

# Enterprise and Learning Committee

EL(3) 17-08 (p26) : 12 June 2008

## **Sector Skills Agreement**

The Sector Skills Agreement listed skills shortages at Level 4 in our sector particularly with Building Services Engineers. We have a limited offer available in Wales and this is based in the South. HEI's were encouraged to attend the consultation events.

## **Sector Skills Agreement with HEFCW**

SummitSkills has a signed agreement with HEFCW to support the work of the HEI's in Wales and also for them to work with us. The agreement includes raising awareness of the sector and its skills requirements.

## **Knowledge Exploitation Fund**

SummitSkills were a partner with Project West looking at improving the relationship between HE and FE across Wales. The project also mapped out the current availability of provision for microgeneration building on the original work the SSC did a year before. This project help raise awareness of our SSC within the HEI network and the findings of the SSA regarding Level 4 requirement in Wales.
