## Scoping paper for the Committee's Carbon Reduction Scrutiny Inquiry

### Purpose

To discuss the scoping paper for the Committee's first scrutiny inquiry into carbon reduction.

### Background

At its meeting on 25 July, the Committee agreed to scrutinise the Welsh Assembly Government on carbon reduction in Wales. The scoping paper at Annex A sets out the proposed scope of the inquiry and suggests ways in which the Committee could conduct the inquiry. **Committee Service July 2007**
