5 Member Debate under Standing Order 11.21(iv) – Control of tobacco and nicotine products

(60 mins)

NDM8571 [Mabon ap Gwynfor \(Dwyfor Meirionnydd\)](#)

To propose that the Senedd:

1. Notes that:

a) smoking kills 5,600 people a year in Wales and places a huge burden on the Welsh NHS of more than £300 million each year;

b) smoking is the leading cause of preventable ill health and premature death in Wales, causing 3,100 cases of cancer each year;

- c) Wales is experiencing a marked increase in the reports of young people vaping, coupled with a sharp increase in the number of retailers selling nicotine products;
- d) an increase in nicotine dependency among younger people will demand additional nicotine cessation support in Wales; and
- e) the Well-being of Future Generations (Wales) Act 2015 requires public bodies in Wales to think about the long-term impact of their decisions, to work better with people, communities and each other, and to prevent persistent problems such as poverty, health inequalities and climate change.

2. Calls on the Welsh Government to:

- a) commit to the full implementation of chapters 2, 3 and 4 of the Public Health (Wales) Act 2017 which would enable the:
 - i) establishment of a national register of retailers of tobacco and nicotine products;
 - ii) adding of offences which contribute to a restricted premises order in Wales, enabling enforcement officers to prohibit a retailer from selling tobacco or nicotine products for up to a year; and
 - iii) prohibition of the handing over of tobacco and nicotine products to a person under the age of 18;
- b) ensure that the Tobacco Control Strategic Board makes the implementation of a tobacco and nicotine retail register a priority action in the second phase of the tobacco control action plan for Wales 2024–2026;
- c) commit to a fully-funded communications campaign to support the implementation and subsequent regulatory and legislative changes; and
- d) establish a working group to:
 - i) oversee the timely implementation of the retail register;
 - ii) explore how the retail register could provide a pathway to a licensing scheme and/or tools for additional enforcement; and
 - iii) present the data gathered from the register to help target smoking cessation and public protection efforts.

7 Welsh Conservatives Debate – GP practices and funding (60 mins)

NDM8582 [Darren Millar \(Clwyd West\)](#)

To propose that the Senedd:

1. Notes the Access to GP Practices in Wales report published by the Older People's Commissioner for Wales, which highlights the importance of GP practices in alleviating pressures on hospitals and supporting patients across Wales.
2. Regrets that in 2012 Wales had 473 GP practices, but as of December 2023, this has decreased to 374.
3. Further regrets that only 6.1 per cent of NHS Wales funding went towards general practice in the year 2020–21 and that less than 8 per cent of NHS Wales funding goes towards general practice at present, which is lower than in 2005–6.
4. Calls on the Welsh Government to:
 - a) take urgent action to ensure Wales doesn't see its 100th GP practice closure in just over a decade;
 - b) adopt the BMA Cymru Wales Save Our Surgeries key campaign calls of 11 per cent of NHS Wales funding to be spent on general practice and produce a workforce strategy to ensure that Wales trains, recruits and retains enough GPs to move towards the OECD average number of GPs per 1000 people; and
 - c) ensure the full Barnett consequential arising from NHS spending by the UK Government is made available for the health service in Wales.

The following amendments were tabled:

Amendment 1 [Jane Hutt \(Vale of Glamorgan\)](#)

Delete all and replace with:

To propose that the Senedd:

1. Recognises the importance of general practice.
2. Welcomes progress with the Primary Care Model for Wales which supports care in local communities, closer to people's homes.
3. Notes that:
 - a) the number of GPs in Wales has remained stable;

b) the reduction in overall practice numbers reflects a trend towards larger practices as GPs seek to reduce costs and maximise resources for patient-facing activity;

c) the current recruitment target of 160 new GP trainees each year is consistently being exceeded; and

d) the Welsh Government is working with the GP profession on a programme of contract reform to reduce bureaucracy for GPs and improve patient experience.

4. Recognises the Welsh Budget 2024–25 increased funding for the Welsh NHS by more than 4 per cent compared to less than 1 per cent in England.

If amendment 1 is agreed, amendments 2 and 3 will be de-selected.

Amendment 2 [Heledd Fychan \(South Wales Central\)](#)

Delete sub-point 4 (b) and replace with:

adopt the key campaign demands of BMA Cymru Wales's Save Our Surgeries to restore the proportion of the Welsh NHS budget spent in general practice to 8.7 per cent with an aspiration to increase to be closer to 11 per cent and to create a workforce strategy to ensure that Wales trains, recruits and retains enough GPs to move towards the OECD average number of GPs per 1000 people;

Amendment 3 [Heledd Fychan \(South Wales Central\)](#)

Delete sub-point 4 (c) and replace with:

make a formal request to the UK Government for a comprehensive review of the Barnett formula to ensure fair funding for all budget areas in Wales, including health and social care;
