5 Member Debate under Standing Order 11.21(iv) – Care settings for autism and learning disability

(60 mins)

NDM8659 [Hefin David \(Caerphilly\)](#)

To propose that the Senedd:

1. Notes that it is over 40 years since the publication of the All-Wales Strategy, which aimed to remove autistic people and/or people with a learning disability from long-term hospital placements and support them to live in their local communities.

2. Regrets that in Wales, some autistic people and/or people with a learning disability are still being sectioned under the MHA or detained under the Mental Capacity Act 2005 in secure hospital settings, which is inappropriate to their wellbeing and causes considerable longer-term trauma, as well as distress to themselves and their loved ones.

3. Believes that this continues to happen to autistic people and/or people with a learning disability because of a lack of support being available in their local areas, with sectioning in some circumstances being used as a default option by relevant authorities.

4. Calls on the Welsh Government to:

a) set out in detail how it will respond to the concerns and objectives of the Stolen Lives' 'Homes Not Hospitals' campaign;

b) collect and publish accurate and up-to-date data on:

- i) the number of autistic people and/or people with a learning disability in Wales who are placed in hospital settings;
 - ii) the type of such hospital placements e.g. mental health hospitals or assessment and treatment units;
 - iii) the providers of such hospital placements e.g. private, public or voluntary sector; and
 - iv) the number and nature of supported living or residential placement breakdowns resulting in hospital detention e.g. name of provider and type of provider;
- c) provide a progress update on the establishment of a dedicated Task and Finish Group to work with stakeholders to help address the issues and concerns that Stolen Lives have raised, and which fall within its devolved responsibilities; and
- d) implement the recommendations of its 2020 National Care Review, which stated clearly that people should only stay in hospitals if there are no other ways to treat them safely.

To propose that the Senedd:

Notes the Equality and Social Justice Committee report, 'Their Future: Our Priority? Follow up inquiry into childcare provision in Wales', [laid](#) on 24 July 2024.

7 Plaid Cymru Debate – Dementia diagnosis

(60 mins)

NDM8752 [Heledd Fychan \(South Wales Central\)](#)

To propose that the Senedd:

1. Notes only 56 per cent of people living with dementia have a diagnosis.
2. Regrets that Wales has the lowest published diagnosis rate in the UK.
3. Believes a focus on early and accurate diagnosis can improve treatment options, reduce the cost of dementia to the NHS and make a cost saving of up to £45,000 per person by delaying admission to care homes.
4. Calls on the Welsh Government to include new dementia diagnosis targets in the new dementia action plan.

The following amendments were tabled:

Amendment 1 [Jane Hutt \(Vale of Glamorgan\)](#)

Delete all after point 1 and replace with:

Notes Wales has the lowest published diagnosis rate in the UK.

Believes a focus on early and accurate diagnosis can improve treatment options and potentially reduce the cost of dementia to the NHS.

Welcomes the Welsh Government's intention to refresh the Dementia Action Plan.

Calls on the Welsh Government to include new dementia diagnosis targets in the new plan.

Amendment 2 [Darren Millar \(Clwyd West\)](#)

Add as new point at end of motion:

Calls on the Welsh Government to ensure the new dementia action plan puts patients and their loved ones first, whilst promoting research into the disease.
