15 Welsh Conservatives Debate – Economic Policy

(60 mins)

NDM9202 [Paul Davies \(Preseli Pembrokeshire\)](#)

To propose that the Senedd:

1. Notes the UK Government's Spring Statement of 3 March 2026 and the latest economic forecasts.
2. Regrets that under Labour governments in both Westminster and Cardiff:
 - a) economic growth forecasts have been downgraded;
 - b) unemployment is expected to rise and Wales continues to have the lowest employment in the UK;
 - c) the number of people in Wales on universal credit is the highest ever;
 - d) economic inactivity in Wales is the highest in Great Britain; and
 - e) pay packets in Wales are the lowest in the United Kingdom.
3. Believes that after almost three decades of Labour-led government in Wales, the Welsh economy is underperforming and working people and businesses need a strong pro-growth approach.
4. Calls on the Welsh Government to get Wales working by:
 - a) cutting the basic rate of Welsh income tax by 1 pence in the pound;
 - b) scrapping business rates for small firms, pubs and post offices;
 - c) scrapping the proposed tourism tax;
 - d) abolishing land transaction tax for the purchase of a primary residence; and
 - e) requiring local authorities to hold a referendum before increasing council tax by more than 5 per cent.

The following amendments were tabled:

Amendment 1 [Jane Hutt \(Vale of Glamorgan\)](#)

Delete all after point 1 and replace with:

Welcomes the additional £555 million in resource and capital funding for Wales over the next three years in the UK Government's spring statement.

If amendment 1 is agreed, amendments 2 and 3 will be de-selected.

Amendment 2 [Heledd Fychan \(South Wales Central\)](#)

Delete all after point 1 and replace with:

Regrets that under the previous UK Conservative Government:

- a) tax as a proportion of GDP reached its highest level since the Second World War;
- b) living standards declined during the 2019–2024 Parliament, the first such decline on record;
- c) the Liz Truss mini budget, supported by the Conservative group in the Senedd, crashed the UK economy and sent mortgage payments soaring for homeowners;
- d) Brexit inflicted an economic hit on Wales that to date stands at over £4 billion, and continues to impose burdensome red tape on Welsh businesses; and
- e) made promises to electrify the Cardiff to Swansea line and to revamp the North Wales line never materialised.

Regrets that under the current Labour governments in Westminster and Wales:

- a) the Welsh budget is set to experience its lowest growth in day-to-day spending outside of the immediate austerity years, and a shrinking capital budget;
- b) the Barnett formula was manipulated at Wales's expense in calculating Treasury reimbursements for employer national insurance contributions in the core public sector, creating a black hole in Welsh public finances that has had to be shouldered by local authorities; and
- c) Wales ranks amongst the lowest of the 12 UK nations and regions on a range of economic performance metrics, including productivity employment and primary income per capita.

Believes that:

- a) the people of Wales have been left worse off from the policy agendas of successive Westminster governments;
- b) Reform threaten to exacerbate this harm through reckless uncoded spending plans and deep cuts to public services; and
- c) only Plaid Cymru offers new leadership to unleash Wales's economic potential.

Calls on the Welsh Government to:

- a) establish a national development agency for the 21st century to unleash the potential of the Welsh economy;
- b) implement Plaid Cymru's childcare programme to save families more than £30,000 in costs per child;

- c) reform business rates to better support domestic SMEs; and
- d) work with the Wales Pension Partnership to ensure that a higher proportion of Wales's pension asset wealth is retained and reinvested in our communities.

If amendment 2 is agreed, amendment 3 will be de-selected.

Amendment 3 [Laura Anne Jones \(South Wales East\)](#)

Delete all after point 2 and replace with:

Believes that after almost three decades of Plaid Cymru-backed Welsh Labour Governments, the Welsh economy is underperforming and working people and businesses need a strong pro-growth approach.

Calls on the Welsh Government to tackle the cost of living, kickstart the Welsh economy, and put the people of Wales first by:

- a) bringing forward a credible plan to cut income tax across all bands by one pence;
- b) scrapping the tourism tax;
- c) introducing a tax lock to prevent the creation of new taxes or levies by the Welsh Government;
- d) scrapping net zero to end wasteful subsidies, and make it easier to build infrastructure;
- e) requiring councils to hold referendums for council tax rises above 4.99 per cent;
- f) restoring the 30mph default speed limit;
- g) delivering an M4 relief road;
- h) undertaking a thorough review of all regulations to assess whether they are necessary, proportionate, and fit for purpose;
- i) implementing a permanent lower business rates multiplier for pubs, hotels and hospitality venues; and
- j) prioritising procurement with local firms.
