To propose that the National Assembly for Wales:

1. Recognises the value of the arts and creativity in the education and development of our young people; providing a rich experience in their own right

but also helping to improve a child's concentration, stimulating their imagination and creativity, building confidence, raising aspiration and giving them a greater understanding and empathy for others;

2. Notes with concern that over the last decade constraints on local authority budgets have put non-statutory music services under increasing pressure;

3. Notes the conclusion of the task and finish group on music services in Wales that key challenges facing music services in Wales include the disparity of existing provision and growing inequality of opportunity to access services; and

4. Calls on the Welsh Government to develop a national strategy on music education so that every child has the opportunity to participate in a range of musical experiences, to reduce financial barriers to accessing these services and to ensure that high quality services are sustained despite reductions in school and local authority budgets.
