5 Welsh Conservatives Debate

(60 mins)

NDM5920 Paul Davies (Preseli Pembrokeshire)

To propose that the National Assembly for Wales:

1. Notes the findings from the interim report into the Review of Higher Education Funding and Student Finance Arrangements in Wales, which states the existing system is "not sustainable", echoing calls from Universities Wales, the Learned Society of Wales and University and College Union;
2. Recognises the need, identified by the interim report, for the Welsh Government to "revisit the tuition fee grant policy" in Wales;
3. Believes the Welsh Government should remodel higher education funding in Wales, implementing a more sustainable policy and offering greater priority to a progressive system of living cost support.

The following amendments have been tabled:

Amendment 1 – Aled Roberts (North Wales)

Insert as new point 2 and renumber accordingly:

Notes the Welsh Liberal Democrat 2013 policy report 'Fairness and Freedom in Higher Education' which calls for a student living support grant, to shift the focus of government assistance from tuition fee debt relief to support for living costs, as a fairer and more effective way of ensuring finance is not a barrier to higher education.

Amendment 4 – Elin Jones (Ceredigion)

Add as new point at end of motion:

Condemns the severe cut to HEFCW's funding in the draft budget 2016–2017, which comes as a direct consequence of the Welsh Government's current fees policy. Believes that this is likely to lead to damaging cuts in support for part time students, research, high cost subjects and the Coleg Cymraeg Cenedlaethol.
