7 Member Debate under Standing Order 11.21(iv) – Active Travel

(60 mins)

NDM6947 [Huw Irranca-Davies \(Ogmore\)](#)

To propose that the National Assembly for Wales:

1. Notes that:

- a) young people in Wales have some of the lowest levels of physical activity in the United Kingdom, contributing to rising levels of obesity and associated health issues such as diabetes 2;
- b) several communities in Wales suffer from illegally high levels of air pollution, with one community experiencing the worst air quality outside London;
- c) congestion on the roads is estimated to cost the Welsh economy £2bn every year;
- d) targets for carbon emissions from transport in Wales have consistently not been met;

e) levels of walking and cycling in Wales are in decline, with falling levels of active travel to school being a particular concern; and

f) each of these issues could be ameliorated if the Active Travel (Wales) Act 2013 was effectively implemented.

2. Calls on the Welsh Government to refresh its ambition for active travel in Wales by producing a comprehensive active travel strategy including ambitious targets and a detailed plan for long term investment in active travel infrastructure.

8 Welsh Conservatives Debate – School Funding

(60 mins)

NDM6975 [Darren Millar \(Clwyd West\)](#)

To propose that the National Assembly for Wales:

1. Notes the current 'school services' indicator based assessment (IBA) formula which calculates how much funding each local authority notionally needs to spend on its schools.

2. Recognises:

a) the lack of transparency in the IBA formula and subsequent local authority school funding decisions; and

b) the public confusion surrounding how schools are individually funded via local authorities, regional consortia and specific Welsh Government grants.

3. Calls on the Welsh Government to develop a comprehensible means of evaluating and communicating the effectiveness of all streams of school funding, in particular;

a) their impact on the attainment and other outcomes for learners;

- b) staff support and development;
- c) school standards; and
- d) delivery against the objectives of wider Welsh Government policy.

The following amendment was tabled:

Amendment 1 – [Rebecca Evans \(Gower\)](#)

Delete all and replace with:

1. Notes that the current 'school services' Indicator Based Assessment (IBA) formulae model the authorities' relative need to spend on school services, given the funding available and making assumptions around council tax and prioritisation of spending.
2. Welcomes the recently published 'Funding for schools' guide that clarifies arrangements for funding schools
3. Recognises that all Welsh Government funding and policy guidance to local authorities, education consortia and schools support delivery in line with the 'Our National Mission' action plan to raise standards, reduce the attainment gap, and deliver an education system that enjoys public confidence.
