The following amendments have been tabled:

Amendment 1 – [Darren Millar \(Clwyd West\)](#)

Delete all and replace with:

To propose that the National Assembly for Wales:

1. Acknowledges the Welsh Government's analysis of the impact of welfare reform.
2. Notes the recent comments made by the Secretary of State for Work and Pensions on the rollout of Universal Credit and Personal Independence Payments, as well as the actions taken by the UK Government to address concerns over the implementation of both.
3. Further notes that the Welsh Government has admitted that employment is one of the best ways to tackle inequality, through its programme for government and economic action plan;
4. Is concerned that, while employment has substantially increased since 2010, the Equality and Human Rights Commission report 'Is Wales Fairer?' highlighted that poverty and deprivation still remain higher in Wales than other British nations; Wales is the least productive nation in the UK, and median weekly earnings in Wales are lower than in England and Scotland.
5. Calls on the Welsh Government to publish a robust and meaningful plan to tackle poverty that contains clear performance targets and indications to measure progress.
