NDM7034 [Rhun ap Iorwerth \(Ynys Môn\)](#)

To propose that the National Assembly for Wales:

1. Notes the importance of International Workers' Day and the role of trade unions in securing the rights of workers in Wales.
2. Notes that Wales is lagging behind the rest of the UK when it comes to fair wage levels, with many people in Wales on wages 30 per cent lower than the rest of the UK population.
3. Believes that legislation should be updated to:
 - a) deliver 'Fair Work' using policy and funding levers and raising collective bargaining coverage;
 - b) protect workers' rights through more effective enforcement; and

c) embed social partnership and collective bargaining into the fabric of Welsh work life.

4. Calls on the Welsh Government to ban the use of zero hours contracts in all devolved Welsh public services and associated supply chains.

5. Calls on the Welsh Government to include a commitment to introducing a social partnership act and associated timetable to the current government's legislative programme.

The following amendments were tabled:

Amendment 1 – [Rebecca Evans \(Gower\)](#)

Delete all after Point 1 and replace with:

Commends the record of successive Welsh Governments since 1999 in developing effective social partnership structures with trades unions and business in Wales.

Notes this approach has helped deliver tangible rights for workers in Wales through the Trade Union (Wales) Act and the Agricultural Wages Order which have overturned UK Government legislation.

Welcomes the actions developed through social partnership by the Welsh Government to eliminate exploitative zero hours contracts in Wales and the work it has done through the Code of Practice on Ethical Employment in Supply Chains.

Recognises the Welsh Government's commitment to make Wales a Fair Work nation.

Notes the Welsh Government's commitment to develop a Social Partnership Act and to introduce it in this Assembly term.

Calls on the UK Government to ensure that as we leave the EU it commits to dynamic and legally binding standards on the protection and enforcement of fair work across the UK.

8 Plaid Cymru debate – Climate Change

(30 mins)

NDM7036 [Rhun ap Iorwerth \(Ynys Môn\)](#)

To propose that the National Assembly for Wales:

1. Notes the stark warning from the world's scientific community that there are just 12 years left to prevent 1.5 degrees warming.
2. Further notes that warming beyond 1.5 degrees represents a threat to the future of humanity, and that even warming limited to that level will wreak havoc upon the livelihoods of countless people across the world.
3. Acknowledges that that an urgent and rapid global response is now necessary.
4. Welcomes the fact that solutions to the climate crisis are widely available including renewable technology, sustainable transport options and zero-carbon buildings.
5. Supports the decisions of community, town and county councils across Wales to pass motions declaring a climate emergency and setting net zero carbon emissions targets for their local areas.

6. Calls on the Welsh Government to declare a climate emergency.

The following amendments were tabled:

Amendment 1 – [Darren Millar \(Clwyd West\)](#)

Delete points 5 and 6 and replace with:

Welcomes the leading role the UK has played working towards a global deal to reduce greenhouse gas emissions through the Paris Agreement and notes that since 1990, the UK has cut emissions by more than 40 per cent while growing the economy by more than two thirds, the best performance on a per person basis than any other G7 nation.

Regrets that emissions in Wales only fell by 19 per cent during the period between 1990 to 2015 and calls on the Welsh Government to work with local authorities and the UK Government to ensure that new legally-binding carbon emissions targets are met moving forward in Wales.

[Paris Agreement](#)

Amendment 2 – [Rebecca Evans \(Gower\)](#)

Add as new point at end of motion:

Commends the Welsh Government for:

- a) bringing forward the Wellbeing of Future Generations Act and the Environment (Wales) Act to drive urgent action on climate change;
- b) committing the public sector in Wales to achieving carbon neutrality by 2030 and for all public sector buildings to be supplied with 100 per cent renewable energy by 2020 or as soon as contractually able; and
- c) exploring all options for decarbonising the Welsh economy by working with all sectors and communities, drawing on the best available scientific evidence.
