3 Updates to previous petitions

3.1 P-04-667 Roundabout for the A477/ A4075 Junction

The Committee considered further information and agreed to close the petition, given that the junction is currently being actively reviewed. In doing so, the Committee also agreed to provide the detailed comments received from Cosheston Town Council about the wider stretch of the A477 so that these can be taken into consideration.

3.2 P-05-907 Change the speed limit in Cemaes to 30mph

The Committee considered further comments from the petitioners and agreed to close the petition on the basis that the Welsh Government is currently conducting a review of speed limits on all trunk roads in Wales and the Minister has committed to considering data, as well as correspondence received, during this process.

3.3 P-05-750 For single use items: introduce a Deposit Return System for drink containers and make fast food containers and utensils compostable

3.4 P-05-864 Ban the use of 'Hostile Architecture

The Committee considered further correspondence and agreed to write back to the Minister for Housing and Local Government to share the evidence received from charities and to ask whether she has been able to give further consideration to whether "appropriate reference to the use of hostile architecture" can be made within advice and guidance on implementing the Government's 'placemaking agenda', as previously referred to, and whether she would consider making a clear statement to local authorities that hostile architecture features should not be used in Wales.

3.5 P-05-927 Changing Places toilet facilities

The Committee considered further correspondence and agreed to await the proposals made in the Welsh Government's forthcoming consultation on changes to Building Regulations which will make the provision of Changing Places toilet facilities expected in certain new buildings.

3.7 P-05-890 Second Home Tax

Given that the Equality, Local Government and Communities Committee has recently considered this issue as part of its [inquiry](#) into Empty Properties, and the Welsh Government has [accepted in principle](#) their recommendation to investigate the scale of the issue, there is little further that the Petitions Committee could achieve at this time. The Committee therefore agreed to close the petition and thanks the petitioner for raising this issue.

3.8 P-05-806 We call for all premises in Wales to be awarded an Access Certificate number similar to the Food Hygiene Certificate.

The Committee considered further correspondence and agreed to keep a watching brief on this matter and to revisit the petition and progress made in the autumn, or on receipt of a further update.

The Welsh Government has [responded](#).

3.14 P-05-877 Children's used uniform scheme

In light of the evidence received by the Committee and the publication of new Statutory Guidance on school uniform policies, the Committee agreed to close the petition and thank the petitioners for raising this issue through the petitions process.

3.15 P-05-884 Amendment to Education (Student Support) (Wales) Regulations 2018 to include UK institutions with operations overseas

Given that only the University of London Institution in Paris can decide whether to apply for its courses to be specifically designated to be eligible for student support, there is little else that the Committee can achieve at this stage. The Committee therefore agreed to close the petition and to write to the University and the petitioner to explain the decision taken and propose that the University applies for designation.

3.16 P-05-909 Promoting the use of Makaton sign language in all Welsh schools

In light of the responses received from the Minister for Education, particularly in relation to the flexibility and school-led nature of the new curriculum, the Committee agreed that there is little further that it could achieve at this time. Members agreed to close the petition and wished to congratulate the petitioner on the example she sets in promoting Makaton to support children with communication difficulties and to encourage her to continue to raise the proposal, including with local schools.

3.17 P-05-932 Education On Food Allergies In Schools & Mandatory EPI PEN Training
