The following amendments were tabled:

**Amendment 1 [Rebecca Evans \(Gower\)](#)**

Delete all and replace with:

To propose that the Senedd:

1. Notes that while transmission of Coronavirus in the community has reduced owing to the measures put in place, the virus has not gone away, which warrants the Welsh Government's prudent approach to balancing public health risks against economic, social and other risks, including travel.
2. Recognises the significant pressure Coronavirus has put on Welsh Government finances and that without additional flexibilities from the UK Government, increased investment in one area, such as health, business support or transport, means less funding available for other areas.
3. Welcomes the significant package of emergency support put in place by the Welsh Government to rescue bus and rail transport operators in Wales during the pandemic.

4. Recognises the important role Cardiff Airport has played during the crisis, helping bring in vital PPE supplies to Wales.

5. Notes the Welsh Government's work:

- a) with other devolved governments to explore a four nation approach to lifting international travel restrictions;
- b) with bus operators and local authorities to explore the appropriate increase of services and put the industry and its management on a sustainable footing for the future; and
- c) with Cardiff Airport to explore new routes and secure its future as part of an integrated public transport system across Wales, despite ongoing resistance from the UK Government in what is largely a reserved policy area to create a level playing field for regional airports.
