May 2016	A Moratorium is not a Ban – Ban Fracking in Wales	<p>We call on Welsh Government to extend its declared moratorium on fracking, coal bed methane and underground coal gasification development to a full and permanent ban, as soon as it has the devolved powers to do so.</p> <p>The scientific evidence of the risks and harms of unconventional gas development mounts every year and we believe that fracked gas has no place in Wales' low carbon future.</p> <p>The 2015 Paris climate agreement, the Well-being of Future Generations (Wales) Act of 2015 and the Environment (Wales) Act of 2016 all make it clear that a swift transition to renewable energy is needed. This is the direction that Wales should firmly take.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>
May 2016	Energise Wales – move to 100% Renewable Energy in 20 Years	<p>We call on Welsh Government to work with the Institute of Welsh Affairs and Professor Gareth Wyn Jones to implement Re-Energising Wales – their programme for a 20 year transition to 100% renewable energy.</p> <p>The 2015 Paris climate agreement, the Well-being of Future Generations (Wales) Act of 2015 and the Environment (Wales) Act of 2016 make our moral and legal obligations clear – in the face of potentially catastrophic climate change, we must act now to protect future generations.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>This transition is totally feasible, both technically and financially, and such a bold programme could be transformative for Wales. It would attract green investment, create tens of thousands of jobs and give Wales ownership of its own energy generation and distribution systems.</p> <p>This would be true energy security and it would give Wales political and economic freedom like never before in its history.</p>

May 2016	Abolition of Severn bridges tolls	<p>We call upon the Welsh Government to actively pursue the complete abolition of tolls on the two Severn crossing bridges.</p> <p>The existence of tolls upon the main entry point into south Wales is a deterrent to both business and pleasure users and is damaging to the Welsh economy. It is particularly damaging to any plans to develop and expand services at Cardiff Airport. The existing arrangement is unfairly favourable to Bristol Airport.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		The Welsh government must engage fully with central government to bring this impediment to an end.	
May 2016	Stop Mistreatment of Horses Tethered to Common Land	We the people object to the brazen everyday mistreatment of horses tethered to the surrounding area common ground. Often with no water on short ropes in all weathers these horses have been seen trying to free themselves, getting their hooves caught in the ropes, falling into the reens, tethered perilously close to fast and large passing vehicles. With no one seemingly responsible for these large animals welfare not even the RSPCA. If this was a dog would we allow this?	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.
June 2016	We demand a referendum on the UK	We, the undersigned, demand that the Welsh Assembly puts forward the notion for a referendum on leaving the United Kingdom.  Our country has gone through unparalleled torture of our culture & language, and Britains "choice" to leave the EU was the final straw.  We want to leave the United Kingdom, potentially joining Scotland, and rejoin the EU.	Non-devolved.  The issue is the responsibility of the UK Parliament.
June 2016	Open Millennium Stadium for Wales quarter final	The buzz of Wales' football at Euro 2016 is set to continue, let's lift the mood of the nation further by opening our national stadium to cheer on the boys in the quarter final!	The Assembly has no powers over this issue. The decision is for the operators or

June 2016	We should make it legal to use mobile phones while driving	Mobile Phones are Legal to use while driving in many American states. We should make it legal to use mobile phones but create DRIVER LEARNING COURSES of SAFE USE with a licence or certificate.	Non-devolved. The issue is the responsibility of the UK Parliament.
June 2016	Motion stating that Wales has not provided sufficient mandate to leave the European Union	We call on the National Assembly for Wales to pass a motion stating that the people of Wales have not provided a sufficient mandate for Wales and the United Kingdom (UK) to leave the European Union (EU) and that should the UK give formal notice that it is leaving the EU then the Welsh Government should work to ensure Wales maintains all the benefits of EU membership. This is because the electorate has not provided a two thirds majority in favour of leaving (other countries and organisations would require this for a substantive change), 16 and 17 year olds were not allowed to vote (unlike the Scottish independence referendum), and not all territories voting (i.e. Wales, England, Scotland, Northern Ireland and Gibraltar) voted to leave.	Non-devolved. The issue is the responsibility of the UK Parliament.
June 2016	Requesting the United Kingdom conduct a second EU referendum	I request that the Welsh Parliament act to protect the people of Wales from the consequences of a withdrawal from the European Union. While a clear majority of the Welsh people voted for the UK to withdraw the referendum is advisory. It is now clear that exiting the EU would result in the collapse of a bid for the Tata steel plant at Fort Talbot and massive EU	Non-devolved. The issue is the responsibility of the UK Parliament.

		<p>funding. We believe that the scale of the financial damage and job losses caused by withdrawal from the EU will hurt people in Wales for generations. The Welsh Parliament must protect Wales.</p>	
June 2016	Validation of EU exit by Wales	<p>We the people of Wales require the Welsh Government Assembly to Support or Deny the Secession of the people of Wales from the European Union. This decision is to be made in the best interests of the people of Wales, taking into account the responsibility of Government and Leadership invested in the devolved body by the people of Wales.</p>	<p>Non-devolved.          The issue is the responsibility of the UK Parliament.</p>
June 2016	Open talks with Scottish Government regarding a joint Scottish-Welsh bid to remain the the EU at Brexit	<p>Although Wales voted to Leave in the Brexit Referendum, the overwhelming Remain Vote by Scotland and Northern Ireland, coupled with the Scottish First Minister's stated intend to open negotiations with the EU offers Wales an opportunity.</p> <p>Wales, along with Scotland and Northern Ireland could negotiate terms of remaining both together in a United Kingdom and within the EU, leaving England to leave the EU and the Union.</p> <p>Any positive negotiations would lead to a joint secession referendum in Scotland, Wales and Northern Ireland.</p>	<p>Non-devolved.          The issue is the responsibility of the UK Parliament.</p>

July 2016	Make political education compulsory in Welsh schools	<p>Following the recent EU membership referendum, we see the importance of having an electorate who are well-informed about how the country is run.</p> <p>While the overall voter turnout was impressively high in the referendum, it appears that young people were less likely to vote than other age groups.</p> <p>We believe that Welsh pupils should learn about the political system of the United Kingdom and of Wales. We believe that increasing awareness about political matters among the young people of Wales would encourage the next generation of voters to be more involved in our democracy. It would help them to improve their understanding of the ideas and values upon which our democracy is built, and would enable them to critique the policies and views of politicians in the Assembly and the UK Parliament. A better understanding of political processes and institutions will allow the next generation to speak truth to power and hold their representatives accountable for their actions.</p>	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

		<p>Some may argue that politics would be a useless addition to the curriculum. However, we believe the reverse to be true: politics would be an engaging and interesting topic to teach. A better understanding of politics would help combat the general sense of disaffection among many young people, who feel disconnected from those in power.</p> <p>Ultimately the best way of protecting and strengthening our democracy is to ensure that the younger generation is educated about this country's politics.</p>	
July 2016	Referendum for Welsh Independence	Llysgenhadaeth Glyndŵr demands a referendum on Welsh independence from the U.K and E.U.	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

<p>August 2016</p>	<p>Raise Minimum Wage for 16-17 Year Olds</p>	<p>We call on the National Assembly for Wales to raise the National Minimum Wage for 16-17 year olds from £3.87 to a reasonable wage. Young people conduct the same work as someone who is 18 or older; therefore, why should young people suffer discrimination in the workplace, on the basis of wage.</p> <p>Employers are driven to employ cheap child labour because it is cheaper than employing someone who falls within the National Living Wage. Action must be taken, we call for the Welsh Assembly to take a leadership role in this matter.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>
<p>August 2016</p>	<p>Rallying Forestry Costs</p>	<p>I believe the planned increase in cost for rallying in Welsh forests are overinflated, and unjust. Rallying wants to pay its way, and would, in my opinion, pay the true cost, if we knew what this is. The benefits of having a strong rallying community in Wales, have been obvious for years, in terms of tourism/financial benefits to often rural areas, and employment. Wales is represented well on the world stage by rallying, and to end all the years of development in this sport/ in Wales, I believe, is short sighted.</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.</p>

September 2016	Pobl Ifanc dros Ewrop / Young People for Europe	<p>Wales voted to leave the European union, despite young people voting overwhelmingly to remain.</p> <p>Plaid Ifanc petitions the Welsh government to ensure the benefits of EU membership to the young people of Wales are retained.</p> <p>The Welsh Government MUST:</p> <ol style="list-style-type: none"> <li>1. Protect Freedom of movement, which enriches our culture and allows us to enrich ourselves.</li> <li>2. Ensure previously EU funded projects and organizations continue to be fully funded.</li> <li>3. Protect the workers rights (including part time workers) and maternity and holidays currently protected by the EU.</li> </ol>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>
September 2016	An extra charge for being disabled and using a taxi is unacceptable	<p>A disabled person faces extra costs purely based on their disability. This can range from accessible accommodation to transport. However it becomes unacceptable when a disabled person is charged by a taxi company because of their disability.</p> <p>A wheelchair user can face 3 or 4 times the cost of a non-disabled person</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>because "regular" taxis aren't accessible. For example, a recent trip cost me, a wheelchair user £13.50 whereas my friends who travelled in an inaccessible taxi were only charged £4.50 for the same journey.</p> <p>The Equality Act 2010 says that a person with a disability cannot be treated unfavourably due to their disability. Charging more for the "privilege" of an accessible taxi is unacceptable and I ask the Welsh Assembly to tackle this problem and force Taxi companies to charge the same for an accessible taxi as they would an inaccessible one.</p>

September 2016	Rename Cardiff Airport – Hal Robson-Kanu International Airport	<p>To celebrate Wales' phenomenal successful at the European Championships this summer, I believe the Welsh Government should show their appreciation by renaming our national airport "The Hal Robson-Kanu International Airport."</p> <p>Hal Robson-Kanu symbolised our success this summer, an unattached player competing with the likes of Ronaldo and Ibrahimovic to score 2</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.</p>

He stepped up to the highest stage not just with endeavor and passion, but with an incredibly high level of skill. His Cruyff turn will have been copied by young people across the world as they imagined scoring for their country on the biggest international stage.</p> <p>Hal Robson-Kanu has long been a cult hero for Wales fans across the country, with supporters of all clubs and backgrounds joining together to sing his name to Salt-N-Pepa's "Push It". I think that his name symbolises the unity and togetherness of the campaign – and means he is a perfect representative of our nation's airport. More so than, say, an English princess.</p>	
September 2016	Rename Cardiff Int. Airport to Arfon Haines Davies International Airport	<p>Cardiff International Airport should be named after someone with a proper link to the area.</p> <p>Arfon Haines Davies International Airport would be a fitting tribute to a broadcaster who many folk have fond memories of.</p> <p>(The terminal could be named after Margaret Pritchard, and Dilwyn Young Jones could have a departure lounge.)</p>	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

October 2016	Reinstate Weekly black bin collection in wales	Please sign this petition if you are fed up already with paying more and more council tax just to receive less and less services for your money. We are being treated worse than animals and doing their job for them, sorting their recycling so they can profit from it. Whilst having disgusting rubbish and waste lying around each month waiting for 3 weekly collections.	The issue is the operational responsibility of a local authority.

October 2016	Cleddau Bridge Tolls	Enquiry concerning a petition to abolish the Cleddau Bridge tolls.	The issue is the operational responsibility of a local authority.
October 2016	An independent Wales, free of England, Scotland and Northern Ireland	Following the EU referendum it is clear that the Individual UK countries have different outlooks and different priorities. Let's separate the countries of the United Kingdom into independent countries, free to make their own laws and to control their own borders as they wish. With Scotland having a referendum in the past I'd like to see Wales have the opportunity to have a referendum too. Let's make Wales independent.	Non-devolved. The issue is the responsibility of the UK Parliament.
November 2016	Monmouthshire County Council Must Use Compulsory Purchase to Complete National Cycle Route 46	National Cycle Route 46 runs along an old railway line from Abergavenny to Brynmawr. It's the most popular traffic free cycling route in the area and offers a safe, pleasant route up the Usk valley, passing through the villages of Llanfoist, Govilon and Clydach. From Brynmawr a new traffic-free route continues to Blaenavon and its wealth of industrial heritage. Route 46 is considered as among the most beautiful cycle routes in Britain, passing through the beautiful Clydach Gorge with breathtaking views into to the Black Mountains. Unfortunately there's a short, 700 yard gap in the route, on the section between Gilwern and Clydach. Cyclists and walkers are forced onto an arduous, mile-long diversion down a steep lane and all the way back up again.	The issue is the operational responsibility of a local authority.

		We call on Monmouthshire County Council to begin the process of compulsory purchase of this tiny strip of land. This is the only way that a crucial piece of cycling and walking infrastructure can be completed, for the wider benefit of residents, visitors and the local economy.	
November 2016	Add Cuckoo Wood and Spring View to the Eligible Flying Start List	We are currently the only social housing properties that are not included in Pembroke Dock. These are new build housing association properties. Why should our children miss out when all of the streets above us and to the side receive it!	The issue is the operational responsibility of a local authority.
November 2016	Get Rid of the Welsh Bacallaureate	A petition to get rid of the Welsh bacallaureate.  By getting rid of the Welsh bacallaureate pupils will be able to receive more of their core science lessons and more of their choice lesson.	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.
November 2016	Alex Cuthbert eligibility to play for Wales	The undersigned hereby call on Welsh Government to facilitate any application from Alex Cuthbert to renounce his eligibility to play rugby for Wales so he can be available to play for England in the upcoming Six Nations Tournament.	Neither the Assembly nor the Welsh Government have any powers over this issue.
November 2016	Stop Dredging in Cardigan Bay	We want the Welsh Government to stop dredging in the Special Area of Conservation in Cardigan Bay.	The petition is the same as, or

		The undersigned reject the Assembly’s stance that we, residents of Wales, would benefit by being able to buy Welsh scallops from Welsh waters. We want our Special Area of Conservation protected from destructive practices such as dredging in order to safeguard the natural marine environment.	substantially similar to, a petition which is open or was closed less than a year earlier.

November 2016	Get the Welsh Assembly to invest money into a dying town!	Over the years Wrexham town centre has become an empty shell. With shops relocating to out of town shopping centres, Wrexham Council charging high rates to park, private landlords charging ridiculous rent, the overall high rates and the lack of investment from the government and Welsh assembly. Wrexham once used to be a thriving market town, now its an empty shell with the odd discount shop, pound shop and charity shop. Footfall has dropped within the town as people go elsewhere to shop as Wrexham has nothing to offer like it used to, and if it keeps declining the way it has, before long there will be nothing left of Wrexham. The town is an embarrassment to the people who live and work here and it's about time something is done about it. Up North We are forgotten about by a the assembly and that needs to change. We are Wrexham, We need change, We need to be put back on the map	The issue is the operational responsibility of a local authority.

December 2016	Require single use drinks cups to be 100% biodegradable	<p>We call on the National Assembly for Wales to pass legislation requiring that all single use drinks cups used within Wales are 100% biodegradable.</p> <p>Very few single use drinks cups (mainly used for takeaway coffee, juice etc) are recycled.</p> <p>Many such cups end up littering our pavements, parks, beaches and rivers. It is time that all such cups (including their lids and any sleeves) should be 100% biodegradable to minimise their impact on the environment.</p>	Did not collect sufficient signatures (50).

<p>December 2016</p>	<p>Prevent the Royal Army from Promoting Sign-Up to those under 18 Years</p>	<p>Young people are not allowed to vote, smoke, drink, sign contracts e.g. credit cards, loans, contract phones; marry, have tattoos, or buy potentially dangerous goods under the age of 18. Yet they are allowed to sign up to the army, be advertised to in schools and in their own homes to sign up to a service that can bear more consequences than any of the above mentioned facets – the army requires a signed up contract for a specific duration that can be signed at age 16.</p> <p>This petition understands that the above mentioned factors to be determined inappropriate for a young person to decide upon, thus, sign up to the army should also be included. This petition is to call for the minimum age of sign up for armed force service to be 18 years, and for the prevention of army recruitment activity in schools for those aged under 18 years.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

January 2017	Please call in and review the planning applications P/2008/1295 & P/2008/1296 for the Racecourse Stadium in Wrexham	We the undersigned call on the Welsh Assembly Government to “call in” and review the planning applications P/2008/1295 & P/2008/1296. These applications, were for a development on the site of the Racecourse Stadium in Wrexham.  The developers offered up a Unilateral Undertaking in support of the applications which promised, amongst other things, that any net profits would be reinvested into the football club in order to build a new stand. This has not happened.  The Councils own position is as stated in a response to a Freedom of Information request.	The issue is the operational responsibility of a local authority.  Petitions related to individual planning applications are not admissible.

		<p>“The requirement for the reinvestment of profits from the development under section 6.2 states that net profits arising directly from the ‘completion of the development’. The development has not yet been completed in accordance with all of the planning consents and therefore it is not possible to determine whether any net profits have arisen.”</p> <p>It leaves Wrexham, and Wales, supporters wondering why the local authority did not introduce measures to ensure the integrity of a local and national asset.</p> <p>The local authority were provided, by the Wrexham Supporters Trust, with a legal opinion from a top planning barrister which would have safeguarded the site. However they chose to ignore this.</p>	
February 2017	Make mental health a compulsory part of secondary school education	Mental health is becoming more and more common within the current and growing society. However, education is lacking. With making mental health a compulsory part of the Welsh secondary school curriculum, pupils will gain information in how to recognise signs of mental health, as well as being taught where to turn for help as well as ways to help others. February 2017	End Agency Fees for Tenants	I am writing to express my interest that Wales follow the lead of Scotland, in banning agency fees for tenants in Wales.	The petition is the same as, or

		<p>Following the 2016 Autumn statement, Wales could soon be the only nation in the United Kingdom left with agency fees for tenants.</p> <p>Evidence from Scotland shows banning fees has a Negligible impact on rents, owing to the market power landlords hold over agents.</p> <p>Even if you do not find this evidence conclusive, the worst case scenario is still favours action. It is easier for tenants to finance fees through higher monthly rents as opposed to a large, on-off lump sum. Those most likely to benefit will be tenants on low incomes.</p> <p>Earlier debate whether this reform is within the Welsh government's powers has been resolved. The Assembly's chief legal adviser has concluded it is a devolved competency. Additionally, In the 2015 general election, the UK labour party ran on a manifesto of abolishing agency fees.</p> <p>This reform has gathered cross party support recently, including several labour backbench AM's.</p> <p>I ask you to bring forward legislation in the assembly to abolish agency fees in Wales for tenants.</p>	<p>substantially similar to, a petition which is open or was closed less than a year earlier.</p>

March 2017	Make St Davids Day a Bank Holiday in Wales	St Davids Day needs to be a bank holiday in Wales not only helping promote Wales around the country and around the world that Wales is a country in its own right but also letting all the people of Wales celebrate living in this great country of ours.	Non-devolved. The issue is the responsibility of the UK Parliament.
March 2017	Rename Llyn Celyn to Llyn Tryweryn Mawr	Llyn Celyn should be renamed to Llyn Tryweryn Mawr.	The petitioner is not resident in Wales.
March 2017	Impose Levy for Football clubs in the Premier-Football League for Play Areas	We hereby request that the Welsh Assembly consider the support of the e-petition to the UK government for the imposition of a levy on the Professional Football Clubs in the United Kingdom, for funds to ensure the provision and maintenance of children's play areas throughout the United Kingdom which are provided by Local Authorities/Councils primarily in parks, green spaces and other public areas. The levy to be distributed to those Local Authorities/Councils to ensure that they have sufficient funds to provide this essential facility so essential to the growth, development and happiness of all our children. March 2017	Stop rural school closures in Mid-Wales	In recent years, there have been many primary school closures in Mid-Wales. This is putting greater pressure on other primary schools and the education of the children is deteriorating as class size is increasing. March 2017	Bilingual Food Packaging for Large businesses in Wales	<p>We call on the National Assembly for Wales to urge the Welsh Government to put a legal requirement on "Large" companies to provide bilingual food packaging.</p> <p>Buying food and other goods is big part of day-to-day life in Wales, as anywhere, providing bilingual packaging would increase the usage of Welsh in day-to-day life for fluent Welsh speakers and learners (and for many, increase or maintain their Welsh language vocabulary which is flooded with English language terms for fruits, veg and other foods.).</p>	<p>Non-devolved.</p> <p>The issue relates to EU law.</p>
March 2017	Extend The North Wales Metro	<p>The "northern powerhouse" in NW England presents a lot of opportunities for all of the people of North Wales and we welcome this. However, the Welsh Government's decision to create a "North East Wales Metro" means that people west of Llandudno will miss out.</p> <p>We need a whole North Wales approach. Holyhead is the most vital trading route within North Wales and needs to be part of the Metro. Caernarfon is a tourist hub and needs to be part. Bangor is a university city and needs to be part.</p> <p>North West Wales should not be left out!</p>	<p>The petition did not receive sufficient signatures (50).</p>

<p>March 2017</p>	<p>Make flash glucose monitors available on the NHS</p>	<p>Flash glucose monitors are currently not available on the NHS. A flash glucose machine allows users to scan a chip on their arm with a glucose reader which tells them what their blood glucose level is. A flash glucose machine is currently £160 on the internet and £50 a sensor every 14 days. At the moment if you can afford a flash glucose monitor you have to prick you finger and put blood on to a glucose stick which is read in a glucose machine. This entails pricking your finger before food, after food, before bed, in the morning and before you drive. This means using a minimum of 10 times a day. This means 10 lancets and 10 strips a day which can cost the NHS a lot of money. But if they introduce the flash glucose machine on the NHS it won't cost as much because the sensor last for 14 days and the machine is a one off and doesn't have to be changed.</p>	<p>The petition did not receive sufficient signatures (50).</p>

April 2017	Save our Eternity charity shop	<p>PLANS to turn a Thornton shop into a takeaway are likely to be approved this week, despite the fact that a primary school will be just a short distance away.</p> <p>Bradford Council has a policy of refusing new takeaways if they fall within 400 metres of a school, but an application to change the use of a charity shop into a takeaway is likely to be approved by Bradford Council's Area Planning Panel on Wednesday.</p> <p>The new takeaway would be a short distance from Thornton Primary School, and there has been a petition, signed by 44 people, objecting to the plans.</p> <p>But planning officers will tell the committee that the 400 metre exclusion does not apply in city, town or village "centres," and 405 Thornton Road is classed as being in Thornton Village Centre. April 2017	Speed bumps to protect our neighbourhood	<p>People of groves road and surrounding streets would like to start a petition for the Welsh government to put force on NPTC to find funds to make our street safer by putting speed bumps along the street. This is a neighbourhood where many children live. They should be allowed to play outside their own house without being at risk from idiots who have no care for others except themselves when they drive down up our street at unacceptable speeds. So far we have had 2 dogs ran over in our street one of them died. Another young girl being hit although i must say this was not the drivers fault this time but had it been someone irresponsible she probably wouldn't be here now. These 3 incidents are just the most recent it goes without saying all the others that have happened in the past. Please make our street safer to avoid any harm coming to ourselves and most importantly our children who deserve a safe childhood. Please sign this petition to support us.</p>	The issue is the operational responsibility of a local authority.

April 2017	Strengthening Welsh Media	We urge the Welsh Government to create a separate, more conducive news-media settlement for the people of Wales. To achieve this, we ask the Senedd to consider the suggestions set out by Plaid Ifanc's 'Strengthening Welsh Media' proposal.	Non-devolved.  The issue is the responsibility of the UK Parliament.
April 2017	Swansea Council's Planning Process	We call on the National Assembly for Wales to urge the Welsh Government to commission an investigation into the City and County of Swansea's planning process in relation to both the management of the Ffynone and Uplands conservation area, and Houses of Multiple occupation across the city.	The issue is the operational responsibility of a local authority.
May 2017	Give 16 and 17 Year Olds the Vote in Welsh Elections	<p>We at Wales Young Greens call on the Welsh Assembly to lower the voting age in Wales to 16 for local and national elections. Giving the vote to 16 and 17 year olds, who hold many responsibilities in our society, will give them the chance to influence key decisions that affect their lives and ensure youth issues are represented.</p> <p>The Scottish independence referendum showed once and for all that 16 and 17 year-olds are more than capable of taking important political decisions. Evidence from the independence referendum, substantiated by research from Austria and Norway, show that if aided by the encouragement of families and schools, 16 and 17 year-olds can have higher rates of turnout than 18 to 24 year-olds.</p> <p>Scotland have since given 16 and 17 year olds the vote in their national</p>	Non-devolved. May 2017	Accessible housing for private purchase in new housing developments	Housing developers are currently not obliged to provide fully wheelchair accessible properties for private purchase. My proposal is that the Welsh government sets minimum standards for the number of suitable properties that must be built in developments. There is currently a lack of suitable accommodation available for young disabled people who are able to self purchase. May 2017	Changing school catchment areas	<p>I propose that school catchment areas should be redesigned and wherever possible children should attend the school nearest their home. Children living closer should have higher priority than those living further away.</p> <p>Doing this would allow more children to walk or cycle to school, improving health &amp; reducing pollution.</p> <p>Costs to Local authorities would be less as less children would require transport.</p>	The petition did not receive sufficient signatures (50).
May 2017	Investigate Arriva Trains Wales Complaints Process	I am in receipt of DLA and got stranded in Chester train station on the 14th December 2016 for more than one hour only to realize I had to finish my journey by taxi. The train from Bangor was delayed and I had to get a plan from Manchester. I would not have arrived on time. Arriva has done nothing to investigate or to cover the costs I had. I urge the Welsh government to investigate complaints processes at Arriva Train Wales.	The petition did not receive sufficient signatures (50).
May 2017	Road safety signs for Cyclists to prevent 'Close Passes'	There appears to be a lack of awareness in motoring if the requirement to give cyclists 1.5m space while overtaking. 'Close Passes' are a frequent occurrence to most experienced cyclists and apart from very dangerous and in some cases life threatening this inconsiderate act is putting new cyclists off taking up this healthy lifestyle choice.	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>Throughout Europe countries and local councils have erected signs on popular cycling routes to remind motorists if the requirement of the need to give cyclists space when overtaking.</p> <p>South Wales Cycling is more popular than ever as we have the valleys and mountain passes that keen cyclists want to ride. The routes bring valuable tourists and cycling visitors the area but some are discouraged due to this common but dangerous act of 'Close Passes'.</p>	
June 2017	Student Nurses	Currently all student nurses receive a bursary. They have to work a twelve and a hour shift. Since all other apprentices are paid a wage for their weeks/months work. Why do student nurses only receive a bursary instead of wage packet instead?	The petitioner is not resident in Wales.
June 2017	Every public building in wales should be equipped with self defence spray	<p>In light of recent events in London it has become clear that we are living in a world where terrorists attacks are becoming a way of life!</p> <p>I propose that every building that serves the public should be equipped with self defence spray just as they are legally required to have a First aid kit .</p> <p>This spray could be kept in a secure glass box just like a fire alarm where you have to smash the glass to release the spray therefor setting off a alarm to alert police.</p> <p>This will help in the imitate moments of a terror attack that may involve attackers that are armed helping to immobilize a potential threat.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		As it stands armed police took around 8 minutes to attend the scene in London today , during that time 20 people have lost their lives, passers by were throwing bottles chairs at the attackers trying to disarm them . I feel that self defence spray could have helped in this type of situation. This would be a cost effective defence for innocent people	
June 2017	Put politics on the school curriculum	There is a basic lack of understanding in the UK about the political systems which govern our lives, the different levels of government, voting systems, public sector funding, the roles of our different types of elected representative, not to mention a lack of understanding of ordinary citizens roles and responsibilities within a working democracy. I call on the Welsh Assembly to introduce politics into the Welsh school curriculum. Wales is already ahead of Westminster in terms of a fairer voting system. Let's take the lead again and give Wales the basic tools necessary for a working democracy	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.
June 2017	Every main road in Wales to have security barriers	In the light of the recent terrorist attacks which involved vehicles driving on the pavement, I would like to submit a petition calling for every main road in Wales to have security barriers raised on the edge of the pavements.	Highways (other than trunk roads) are managed by local authorities.
June 2017	Referendum on dissolving the National Assembly for Wales	We call upon the National Assembly for Wales to hold a referendum on whether the National Assembly should be dissolved. June 2017	Save Free Movement In Wales	<p>This is a petition to help Wales gain access to the single market and not let Wales miss out when we leave the EU. This was agreed we could do if we accepted the four agreement of trades proposed by the European Union Union.</p> <p>I would like to keep free movement because it helps us keep connected within the world, and help us combat any issues because we are together working on solutions to make the world better, from terror and make businesses stand out from the other continents.</p> <p>I have proposed/formed this petition because I feel people have the right to move around Europe because it has created families and friendships. I believe people have the right to come work in Wales due to them offering a unique qualities to our country to make our country stand out and helps us make us unique in the world. At the moment we can travel freely around Europe and other EU state members come here. This shows fairness as we have as many here as they have us abroad, where I finally ask why would we also risk our own safety for the British people abroad, why not stay connected and make us a great country what we are today and not fall backwards.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

June 2017	Allow RNLI Crews To Have Blue Lights	<p>With the tourist season beginning our RNLI crews will be paged more often, and many tourists do not understand that our RNLI crews need to get to the station as quick as possible. Rural areas are the worst with narrow, windy roads that tourists. This would help the crews to help protect our people.</p> <p>In some emergencies, private RNLI cars have tried passing by vehicles but tourists and local buses have refused to pull over, even though they had their hazard lights on. July 2017	Update The NHS Pathway For Transgender People	<p>We, the undersigned, request that the referral pathway in for transgender people in Wales is brought up to date with the rest of Great Britain, where a referral from only a GP is necessary to gain access to a Gender Identity Clinic.</p> <p>It has been reported that transgender people in Wales can face a wait of 4 years until they see a specialist, often even longer. This is a serious problem. Transgender people are being left for years without the specialist support they need, commonly just being prescribed anti-depressants instead of having the root cause addressed. This is inarguably a detrimental way to treat one of the most vulnerable groups in our communities.</p> <p>The requirement for psychiatric assessment prior to referral to a specialist clinic does nothing but damage to both patients and the NHS. This is a completely unnecessary process at all levels, as Gender Identity Clinics perform their own mental health assessments regardless.</p>	The petition did not receive sufficient signatures (50).

July 2017	Bar Michelle Brown AM from the Welsh Assembly	In light of the Daily Post's exposure of the vile, abusive and racist comments Michelle Brown AM made in a phone call to her senior adviser regarding Chuka Umanna MP on May 14 2016, I feel she should be banned from the Senedd. The words themselves are so disgraceful I refuse to repeat them here. It is simply unacceptable that someone who says these racist comments can be allowed to be representative of the people and a member of our Government. I petition that Michelle Brown AM be removed from office.	The petition asks the Assembly to do something it cannot do.  The removal of a Member is a decision for that Member or the electorate.

July 2017	Enhanced Drug Consumption Room in Wales	We the undersigned call upon the Deputy Cabinet Secretary for Social Service to support the establishment of a "Medically Supervised Drug Consumption Rooms" as a pilot in the North Wales Police area where the Police and Crime Commissioner is already on the record as being firmly in favour of such a facility. July 2017	Razor Clams	I disagree with WHOEVER is collecting So many razor clams & messing up our beach. These people (Chinese or otherwise) are leaving a huge mess behind– salt packs etc.... they are also urinating in our children's play area! My partner is a fisherman in the village & we are at the beach very frequently– the sheer amount of razor clams collected PER PERSON is obvious it's not for their own consumption. I am NOT racist– it would bother me if they were a hundred plus welshmen/women!! Our beach is already looking different & has issues with soft– mud/sand where ppl are getting stuck in. August 2017	Improved Transport links for Cyclists to Rural Areas	As a non–driver I find it quiet frustrating that some of the most lovely places in Wales are very hard to reach if you do not drive as you cannot travel on the local bus services with a bike . There are private companies in the more popular regions but there are still large swathes of the countryside which are yet to be discovered. I propose that we have a re–trial of racks for cyclists on busses in rural areas as it will help with environmental issues and could help bring in added income to the rural communities	The petitioner is not resident in Wales.

<p>October 2017</p>	<p>Declare respect for the result of the Catalan referendum</p>	<p>Plaid Ifanc calls on the Welsh Government to issue a declaration, clearly stating that it accepts the result of the Catalan independence referendum held on the 1st of October 2017.</p> <p>Over two million votes were successfully counted following the referendum. 90% of those whose votes were successfully counted voted yes for the creation of an independent Catalan state in the form of a republic.</p> <p>This referendum was held in accordance with the referendum law, passed by the Catalan Generalitat, the equivalent body to our own National Assembly for Wales. The right to self-determination is also enshrined in the United Nations, which says that “All peoples have the right to self-determination; by virtue of that right they freely determine their political status and freely pursue their economic, social and cultural development.”</p> <p>The millions who cast their vote on the 1st of October did with great bravery, dedication, dignity and vulnerability. But all democrats around the world, as well as in Wales, must agree that when ballots are met with batons then the oppressors have already lost.</p> <p>The Welsh Government declaring its respect for the result of the referendum is not an indication that it agrees with Catalan independence. It is simply a necessary act which demonstrates that our national government has an unshakeable commitment to democracy, dialogue, and decency.</p>	
October 2017	Make the Welsh Baccaulaureate optional again	<p>Recently the Welsh baccaulaureate qualification has been made compulsory throughout schools in Wales. It is claimed that this qualification 'gives broader experiences than traditional learning programmes, to suit the diverse needs of young people' and that this qualification 'is an exciting and challenging qualification that helps young people develop the skills they need for work and further study and gives them a recognised qualification for these skills'.</p> <p>However, many students argue that the Welsh baccaulaureate does not work in practice as well as it is thought to. It is believed that the Welsh</p>	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

October 2017	<p>Promoting traffic calming measures outside Willowbrook Primary School</p>	<p>As Parents/Carers of children attending Willowbrook Primary School, we are deeply concerned for the safety of our children as they come to and leave the school. The parking around the school's perimeter is obstructing the eyeline of pedestrians as they cross the two zebra crossings on both Willowbrook Drive and Sandbrook Road. We feel that additional traffic calming measures need to be introduced to avert the very real possibility of a child being knocked over by a car.</p> <p>Please could the Transport Department of Cardiff County Council take our concerns seriously and support us in seeking to ensure the safety of all our children and parents at Willowbrook Primary School.</p>	<p>The issue is the operational responsibility of a local authority.</p>

All of these are struggling enough in The Welsh economy as it is!! By raising the price of Alcohol the breweries and wholesalers will increase their prices making bars/clubs and pubs having to increase theirs on top of duty prices which are set and raise each year!! This is particularly going to affect the valleys and other parts of Wales. Jobs are getting harder and harder to come by in these areas and the majority of people living in these areas have to travel to bigger towns and cities Cardiff, Newport, Swansea and some across the border to England.</p> <p>Has The Assembly Thought and Considered this?? Closed for signatures on 31/10/17 Submitted October 2017	Voting rights for all legal residents of Wales	We call on the National Assembly for Wales to urge the Welsh Government to extend voting rights to all legal residents in Wales, irrespective of their nationality or citizenry.  The Welsh Government has stated its clear position to protect in full the existing rights of EU citizens who are already resident in the UK before Brexit. Urging the Welsh Government to continue these democratic rights for people from the EU who already contribute more to Wales than they use in services, and extending them to people from inside and outside the EU who become legal residents of Wales after Brexit will show our commitment to them. They are the mainstay of our NHS, our schools and universities, they support our growing older and disabled population, our businesses, hospitality and agriculture. Without them our economy and services would suffer. Everyone who takes part in our society should have the democratic right to be part of making decisions.	Did not collect sufficient signatures (50).

November 2017	Minimum wage for under eighteens	<p>My petition is concerning the minimum wage for under eighteens in Wales. I think the hourly rate of £4.05 is too low. Even if it was just a minimal increase I believe it would make a significant difference and could encourage a rise in employment for people under eighteen. This could see many benefits for younger people, such as teaching them more responsibility, preparing them for work in future life and just allowing</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>them to be part of a different environment around different people. Additionally for an all day over sixteen bus pass, where I live in North Wales, it's £4. So it seems subjective where different age cut off points ,concerning money, come into play in areas. As if you're 16–17 you have to pay a full adult price for the bus but you're only given an increase in minimum wage when you reach eighteen. I am aware an increase to £5.60 may not be possible for under eighteens but as I said before any sort of increase from £4.05 would see a number of benefits for younger adults.</p>	
November 2017	Don't make Welsh compulsory at GCSE level	<p>I am submitting a petition regarding the issue of compulsory learning of Welsh at GCSE level throughout Wales. I believe that Welsh should be made an option subject rather than mandatory for all pupils. For most pupils throughout Wales, Welsh lessons account for 5 lessons a fortnight on their timetables. I feel that these 5 lessons would be better spent on core subjects such as English, Mathematics and Science. If you look at Scotland and Northern Ireland, none of the pupils there are forced to learn Gaelic at GCSE and these pupils English and Mathematics results are significantly better than that of Welsh pupils. I firmly believe that Welsh lessons are an extra burden on GCSE pupils in an already taxing education system. As a result of this extra burden, English and Mathematics results continue to be lower than that of pupils in England, Scotland and Northern Ireland. In addition to this, 19% of people in the last census could speak Welsh. So why should all children learn Welsh when 4/5 children don't speak Welsh and won't become fluent after 2 years of GCSE lessons? I strongly believe that replacing Welsh on the</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.</p>

November 2017	Ending Compulsory Welsh Baccalaureate	<p>By making Welsh Baccalaureate compulsory at A-level, we are limiting the potential of students, along with putting them at a disadvantage in comparison with their English and international counterparts. Forcefully deciding a students A-levels is patronising, unfair and patently unwarranted, as by sixth form, we have reached the maturity, and thus should possess the right, to determine our own future. Obligatory Welsh Baccalaureate limits our ability to shape this future, as our ability to take 4 A levels is practically eliminated, along with much of the time needed to concentrate on our subjects in order to acquire competitive grades.</p> <p>One cannot deny that Welsh Baccalaureate can provide as useful for some students, it offers work experience, and the development of a myriad of communication and organisational skills. However, all A-levels provide as valuable, yet the amount of value is dependent upon the student and what career path they decide. For an example- a student intending to pursue a STEM related career, taking 4 A levels in Biology, Chemistry,</p>	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

		<p>Mathematics and Further Maths, is going to find these subjects undeniably more useful in the future than they will Welsh Baccalaureate. Along with this, a student wanting to take law, may find English Literature, Mathematics, Law and History more utilisable than Welsh Baccalaureate. Why should we ignore the needs of these students?</p> <p>It would be far superior if Welsh Baccalaureate was optional, as students who would benefit from the subject could take it, whilst the others who do not require it would not have to. Our A levels determine our future, and facilitate us with the skills that will aid us in our future employment. They hold the veritable keys, do we not have the liberty to decide which door we unlock?</p>	
November 2017	Welsh Baccalaureate	<p>As a sixth former who was very much looking forward to their further education, I feel the need to discuss my issue with this subject. The subject seems pointless, supposedly it is going to be made a legal requirement for the 2018 school year, yet we are being forced to do the subject in 2017? As a 'guideline'. While studying the subject I have felt that I am wasting my time, the only skills that have been developed are my hatred for the subject growing. I have had to drop English literature due to the stress of having to do three subjects and Welsh Baccalaureate. I would have very much liked to have studied literature, however this subject which seems so pointless has taken up a large fraction of my time. 'Volunteering' instead of work experience is just unrealistic, trying to find solutions for world issues is not my job and how am I supposed to</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.</p>

January 2018	Wales Decriminalise Adult Consensual Incest	<p>We the undersigned call on the Welsh Government to call on the UK government to de-criminalise adult consensual incest.(ACI).</p> <p>Because of modern technology and better education, people the world over realize that ACI is no longer the threat to the human gene pool it was once claimed to be. From a human rights point of view, it might seem that incest between consenting adults should not be a criminal offense, and that if incest could result in harm to individuals or to society, that it would be fairer and less cruel to respond to that possibility with harm reduction strategies than with criminalization. Furthermore:</p> <ul style="list-style-type: none"> <li>• Genetic testing and optional abortion of defective embryos might reduce the possibility of a couple passing on two copies of a defective gene to a child.</li> <li>• Voluntary sterilization of either member would entirely prevent defective genes being passed on.</li> <li>• It might cost taxpayer less to provide such services than to prosecute and imprison incestuous couples.</li> </ul>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

April 2018	Rename the Second Severn Crossing "The Arfon Haines Davies Gateway to Wales"	The Second Severn Crossing should be named after someone who actually lives in Wales and doesn't just visit occasionally. Someone with a strong cultural connection to our fine Country.	Non-devolved. The issue is the responsibility of the UK Parliament.
April 2018	Give Carers a Living Wage	We, the undersigned, call upon the Welsh Government to use the powers given to them by the Wales Act 2017 which devolved spending so that money raised by taxation in Wales was spent in Wales, to address the abominable treatment given to carers who get 58p per waking hour by trebling the Carer's Allowance in Wales to £194 a week. According to a report published in 2016, there are 370,000 people claiming Carer's Allowance in Wales who save the Welsh Government £8.1 billion a year. That works out at £21,892 a year, £1,824 a month, £456 a week or £4.07 an hour. Trebling the Carer's Allowance would still enable the Welsh Government to save over £4 billion a year in care costs and yet provide carers with a living wage.	Non-devolved. The issue is the responsibility of the UK Parliament.

<p>Submitted February 2018</p>		<p>Roald Dahl was born in Cardiff and this is something that should be celebrated by our wonderful city every day, giving visitors a taste of the wonder that he brings through his stories.</p> <p>BBC news reported in September last year that, "More than 35,000 people visited Cardiff for the 2016 City of the Unexpected festival celebrating Dahl's work" – why do we not have a permanent statue/exhibition in his honour? This could boost tourism on a more long-term basis, making Cardiff a permanent City of the Unexpected and bringing tourists not only to Cardiff, but also to other parts of Wales.</p> <p>A statue has been erected in his father's hometown, Sarpsborg, to celebrate their links with the author, it seems totally ludicrous that we do not have a permanent celebration in place also.</p> <p>It is time for us to celebrate the man who has brought joy, imagination and wonder to people all over the world, again putting Cardiff more firmly on the map as a city of culture.</p>

May 2018	Collective Worship Should Be Opt-In Only	We call on the National Assembly for Wales to urge the Welsh Government to look at changing the way in which Collective Worship, in schools is enforced; specifically making it 'opt-in' rather than 'opt-out'. May 2018	Local schools for local kids	local authority managed schools admissions is a farce. My family live within 200 metres of a local school in Newport and am having to pay for a breakfast club daily to allow us to continue working and also have to travel 7 miles each day to transport my son. 2 years in a row we have not managed to secure a transfer to a local school. In fact this year he has now moved down the list and is now less likely to get a place anytime soon. From communication on groups within Facebook it is clearly apparent that there are many parents struggling to gain a transfer due to the many others entering schools outside of their catchment. This is placing much undue stress on many families in ensuring they are able to get their kids to school on time and continue work. The local authorities submissions systems seems to not favour children actually in catchment and policy needs to change to give catchment pupils priority and	The issue is the operational responsibility of a local authority.

May 2018	Abolish lower pay rates for under 25's	It's wrong to pay people differently due to their gender so it must be wrong to pay people differently due to their age. This is ageist. If you are 18 or older and do the same job as someone over 25 then you should be paid the same. Also, for those of you over 25, you could be losing out on jobs because companies are exploiting the lower wage rates to save on labour. We must act fast and stop inequality altogether!	Non-devolved.  The issue is the responsibility of the UK Parliament.
May 2018	Lower the speed limit on the A4232 to 50mph	Cardiff's link road, the A4232 has experiences a high number of accidents, I believe to be as a result of its design. The road has no hard-shoulder for the majority of its length, Culverhouse Cross to Butetown. There is no real buffer between central reservation and outside lane for the entirety of its length. The road surface between Culverhouse Cross and M4 J33 is concrete, not tarmac, making it more slippery in adverse conditions. Traffic often queues on the road frequently, and because of the considerable bends these queues can appear very suddenly. All of these factors, and others, make the road more dangerous than other high-speed carriageways, like the M4 or the A48. The A470, from Coryton to Taffs Well, which has a similar makeup – little to no hard-shoulder, close proximities to central reservation, currently has a 50mph restriction and I believe that the A4232 should be similarly restricted.	The issue is the operational responsibility of a local authority.

New languages cannot be instantly learnt. Research illustrates that there will be around a five-year learning deficit before native English-speaking children will be able to learn at the efficiency of Welsh native speaking children in Welsh medium school. This applies to an average child. Working memory is the gateway to all learning. Language fluency opens it wider. There is a seven-year difference in children's working memory capacity at the age of seven. Unless children can develop sufficient Welsh language fluency, then they will not be able to reach their full learning potential, which it is children's legal human right to achieve in Wales. Professor Sioned Davies was a university academic. She had no legal teaching qualifications. She had no school teaching experience. Closed 31/5/18  Submitted April 2018	Looked After Children services in Wales needs radical changes	<p>We call upon the National Assembly for Wales to urge the Welsh Government to review social worker practice in Wales with regards to their practices and work ethics as we believe social services needs to be held responsible for not following guidelines and the law. New structures are needed to ensure social services keep to their job description.</p> <p>I'm not saying that the resources and tools the LAC services use don't work, but I am saying the people employed by the LAC services don't have the training or capacity to use these tools and resources to their full extent whilst lacking the balance of empathy and understanding needed to deal with the complexity of family/social life that require assistance. To offer families assistance with the struggles of family life has mutated into judgemental decisions being made from a fear of something happening in the future.</p> <p>From my own experiences within the care system and with my daughter’s situation I can honestly say nothing positive ever came from it, which is frustrating when I read the guidelines and laws regarding social workers which completely contradict the actual experiences I and my daughter have had.</p> <p>The social workers I have worked with haven't all been bad people, but the ones who care and want to make progress are pushed aside. There is a massive air of repressed emotion within the LAC system underlined with</p>	Did not collect sufficient signatures (50).

		<p>a massive lack of humanity which leads to the whole system being viewed as child snatchers which is what the system has mutated into.</p> <p>To make matters even worse ASD is now recognized as a mental illness so instead of addressing this and educating the system they all view it as another tool in their arsenal, which they use to pass the duty of care onto the already stretched mental health system. There are children dying, families being torn apart all because this work force is filled with workers riddled with fear and an unhealthy obsession with the past.</p> <p>Whilst the courts' backs have been turned social services are misbehaving, breaking laws and ignoring their work ethics and training procedures. They are so out of touch with families and children massive mistakes are being made, IROs don't care anymore and the mental health system is operated like puppets by the LAC system.</p>

June 2018	<p>Start taking traffic &amp; air quality issues in Chepstow seriously and stop putting costs before resident health!</p>	<p>This petition is to demand urgent action on the issue of traffic and air quality in the Chepstow area. The last Census (2011) revealed that since 2001, Chepstow had a population growth of 14.1% almost doubling the Welsh average (7.6%)(1). There has been no investment in overall traffic infrastructure during this time. Additionally, large housing developments in and around Chepstow (inc Tutshill, Sedbury and Lydney) have obtained planning permission since this time further adding to the local population, increasing demand on our roads and contributing to poor air quality. Chepstow regularly becomes gridlocked due to traffic accidents, traffic light failure and/or congestion. This poses a significant threat to residents and causes concerns with emergency vehicle access as well as air quality issues. Chepstow has been found to regularly exceed World Health Organisation limits on pollution particularly, nitrogen dioxide (2). Options to improve roads are continually dismissed due to costs (3&amp;4).</p> <p>We want:</p> <ul style="list-style-type: none"> <li>• Traffic issues to be seriously and urgently reviewed. The chairman of Eisteddfod Genedlaethol, Eifion Lloyd Jones, referred to people from Uganda as savages during the Eisteddfod. He later went on to defend these comments publicly, and issued a non-apology on 12th August 2018. The lack of discussion from the Eisteddfod council is worrying given that this has been one of the most diverse and inclusive Eisteddfod to date. August 2018	Make Gwynedd Council abide by the RNLI's 2014 survey, lifeguards for Tywyn Beach	The RNLI did a survey in 2014 pointing out the dangers of a permanent rip topographical rip current due to the man made structure to protect the promenade and stop erosion on Tywyn Beach. Gwynedd Council have ignored the RNLI's advice and gone with a Beach Warden instead, who are not Lifeguard trained. The devastating impact of this was brought home again this summer on the 31st of July, they are standing by their decision and refusing once again to put lifeguards on this beach. September 2018	Ban Greyhound Racing in Wales	<p>We the undersigned call for the Welsh Assembly to ban greyhound racing in Wales. In 2017 alone, 1013 greyhounds were destroyed due to greyhound racing. The greyhound racing industry has existed since July 1926 but they have been unable to apply regulations to successfully end widespread cruelty in connection with greyhound racing due to the mass breeding of dogs necessary to meet the needs of televised greyhound racing. It is impossible to re home the amount of dogs bred for racing and in addition legal for dogs to be destroyed on economic grounds. It is impossible to monitor the amount of greyhounds destroyed once they are no longer registered to race, and they do not remain the responsibility of the greyhound racing industry after a retirement form is submitted to the industries governing body, therefore the retirement forms submitted to the Greyhound Board do not document the whereabouts of dogs after they are relinquished by their racing owner/trainer. Dogs have been found bludgeoned, poisoned, drowned, and even shot by captive bolt gun. Greyhound racing is in great decline and very out dated. We are calling for a ban on greyhound racing in Wales with a phase out of 12 months to allow re homing of dogs and re training of employees.</p>	The petitioner is not resident in Wales.

We are committed to fulfilling our role as the national legislature for Wales in developing a national culture that enables children and young people throughout the country to sustain excellent mental health. Therefore, we believe that the National Assembly for Wales must always strive to ensure that legislation passed by us that might impact the mental health of children, directly or indirectly, will positively contribute to the development of such a culture.</p> <p>Furthermore, we urge the Welsh Government to recognise that not only is adequate funding of children's mental health services essential; but that any cultural, societal, or political factors that we or they identify as contributing to children suffering from poor mental health should be comprehensively addressed within the shortest possible time-frame.</p>	The petition does not call for specific action to be taken.

Parties registered in other countries e.g. England, do not necessarily have the best interests of Wales in focus. It is apparent that certain political parties currently active in Wales are following the interests of the "Mother" party. The Welsh Assembly is tasked with focussing on Wales only issues and matters. Therefore only parties who are registered in Wales should be permitted to stand for Assembly elections.	Non-devolved.  The issue is the responsibility of the UK Parliament.
November 2018	Calling on the Welsh Government to ban the sale of Fireworks (except for organised displays)	Each year the nightmare goes on for so many companion animals as fireworks go on sale to the general public. First to mark the 5th of November, then for New Year's Eve. Some people do not stick to these dates alone for letting off what are in effect explosive devices. So animals suffer in some cases for many weeks. This year there have been many reported tragic cases. One involving a dog, who vets think had a heart	Non-devolved.  The issue is the responsibility of the UK Parliament.

		<p>attack because of Fireworks. One lady shot a film of the very distressing sight of her dog suffering because of the noise fireworks make. Horses and livestock also suffer and are put in danger because of this practice. There have been cases of horses suffering horrendous burns due to fireworks landing on them.</p> <p>Sadly also some cats have suffered as the result of having fireworks strapped to them, then being lit.</p> <p>Despite the very best efforts of caring and devoted owners together with excellent advice from Veterinary professional's. Nothing can stop the distress caused. The acute senses nature provided these creatures of course unfortunately adds to their distress.</p> <p>This season also puts an additional strain on our already stretched emergency services. Restricting their use to organised displays, would be the solution to all these problems. While still letting people enjoy fireworks in a controlled safe environment.</p>	
November 2018	Silent fireworks Petition	<p>We are calling on the National Assembly for Wales to introduce legislation for silent fireworks in Wales to be mandatory for all public and private displays.</p> <p>I have struggled with a dog that is terrified of fireworks for years, but have not wanted to petition for a total firework ban, believing it not to be the answer. However, now that silent fireworks are being manufactured,</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>are freely available and have been proven to be equally as effective visually, it is time to insist on a change.</p> <p>It is heartbreaking enough to try to pacify a terrified pet – not only over Bonfire Night which is now Bonfire Week, but also New Year’s Eve and random celebratory events like festivals and weddings – but I cannot begin to imagine the pain felt by some owners who have actually lost their pets due to the random and often unexpected explosions.</p> <p>Tragically this year alone, I have also heard of a dog that was killed after running out in front of a car in a blind panic and a horse being killed by running straight through a wire fence – both as a result of firework explosions.</p> <p>Accidents are called accidents because they are deemed to be unpreventable. These tragedies are not accidents .. they are preventable. Which is what this campaign is about.</p> <p>I am not anti–firework or anti–fun but I am totally against unnecessary suffering for animals and wildlife. Silent fireworks allow the visual effects to be enjoyed without the detrimental effect of the noise. They have been used in Parma, Italy with great results and even with increased attendance at public displays as owners who are normally at home taking care of distressed pets, can also go out and enjoy the silent but effective displays.</p>	
--	--	--	--

		<p>It's not only pets and livestock that are at risk; on New Year's Eve 2010 in Arkansas, over 5000 dead red-winged blackbirds fell from the sky. Lab results revealed "acute physical trauma" in samples of the dead birds, which was put down to distress by local fireworks displays. The birds flew into chimneys and trees as they tried frantically to escape.</p> <p>Of course, humans will benefit from quiet fireworks too. The young and the elderly alike are often distressed by loud noises, especially children with autism and adults with PTSD. Even people on shift work would benefit by not having their sleep disrupted.</p> <p>There are no disadvantages to switching to silent fireworks with none of the visual effects, celebratory aspects or enjoyment being compromised, negating the need for a total ban.</p> <p>Let's start being a bit more aware, a bit more thoughtful and a lot more considerate.</p> <p>Fireworks were originally invented in medieval China around the early 9th century with one of the cultural practices for them being to scare away evil spirits. Ironically today, they signify 'evil' for many, but we now have a safe and equally enjoyable alternative – silent fireworks.</p> <p>They could save a life.</p>

November 2018	Adoption of the Springfield Gardens Estate in Hirwaun	We the undersigned, call upon the National Assembly for Wales to take all necessary steps, utilising its full legislative powers over local government and housing, to resolve the dispute between Dwr Cymru, Rhondda Cynon Taf County Borough Council and Persimmon Homes in order to affect the complete and speedy adoption of the Springfield Gardens Estate in Hirwaun. We noticed many of the cars appeared to be speeding. This concern because if our pupils cross that road whilst people are speeding the cars may not be able to stop in time. This could be a catastrophe.</p> <p>There needs to be a safe place to cross. Some pupils cross the A4069 daily to get to and from school. We suggest a pelican crossing is very important so pupils can cross the road safely.</p> <p>According to the UN Convention on the Rights of the Child–Article 3– the best interests of the child must be a top priority in all decisions and actions that effect children. December 2018	Make Saint David's Day a Bank Holiday in Wales	We are calling on the National Assembly of Wales to make Saint David's Day a National Bank Holiday within Wales so that we can have an official day to celebrate our traditions and history, along with our culture and language. It will place a significance on the day for the people of Wales and encourage people to use the day to truly celebrate the Welsh identity.	Non-devolved.  The issue is the responsibility of the UK Parliament.
December 2018	We are calling on the Welsh Government to Protect and use Welsh names on landmarks and locations, and use the Welsh Language when building new properties, streets, housing estates etc.	We have unique names on every landmark in Wales, names that have deep meaning, that describe the character and history of a place or area. We see these names across Wales, be it on Villages, Farms, Houses, Landmarks, Fields and even on parts of cliffs by the sea, we see them everywhere and they give a place its character and meaning. In recent years we have seen instances where people have tried to replace a name of certain landmarks, lakes, mountains etc, an example of this is the name of Llyn Bochlywd by yr Wyddfa, which people tried to re-name with "lake Australia", also we see a number of farms and houses losing their unique names or new houses built that don't the use of the Welsh Language, something that is vital to keep the linguistic history of these areas alive and strong, and to show respect to the Welsh Language all across Wales. We are calling the Welsh Assembly to protect all the Welsh Names and to make sure that Welsh names are used when building new properties in Wales. January 2019	Scrap Repatriation Fees for Women Fleeing Forced Marriage	<p>We call on the National Assembly of Wales to implement the Violence against Women, Domestic Abuse and Sexual Violence (Wales) Act 2015 to make sure that no woman or girl (or other person) in Wales receives unequal access to VAWG services combating violence against women and girls (based on their religion, ethnicity, faith, racial, cultural background or geographic location as citizens of or in Wales) in making funds available to ensure no woman or girl (or other person) is left out of pocket owing to Foreign Office repatriation.</p> <p>A Freedom of Information request has shown that the Foreign Office repatriated 27 women in 2017 to the United Kingdom. They were forced to sign emergency loan agreements to pay for their own repatriation that, if remain unpaid 6 months later, are subject to a 10% interest hike. They are also unable to access their passports.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>We believe that repatriation costs are prohibitive and overwhelmingly more likely to be given to women who have multiple protected characteristics under the Equality Act 2010 and the Human Rights Act such as race, religion, ethnicity and sex. Women should not have to pay repatriation costs to Wales following the experience of human trafficking, honour violence, forced marriage or kidnapping.</p> <p>We believe that this creates a gap in provision in forcing some women to that is not conducive to a more resilient and equal Wales of cohesive communities that is more globally responsible to allow Welsh populations (including BAME survivors of VAWG along with women and girls) to prosper. Finally, these incidents that survivors face are deeply traumatic and lessening secondary trauma from state institutions will lessen the impact of domestic violence on National Health Service facilities, which costs £40 billion pounds a year in the United Kingdom and safeguard the wellbeing and mental health of survivors.</p>	
January 2019	Label Better : Recycle More	<p>Following the recent festive period it has been reported that vast amounts of cards and gift wrap are sent for recycling when in fact they cannot be recycled because, for example, they have glitter or a plastic sheeting. The Assembly should consider imposing a clear labelling system on such items sold to the public, which would indicate if it can be sent for recycling or not.</p> <p>This should encourage retailers to provide a choice to their customers. In turn if consumers are clearly and directly told if an item can be recycled</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>

		<p>or not, it allows the consumer to make a conscious environmental decision.</p> <p>It is also hoped in turn, that should an item be clearly marked on the front, so all customers can see and understand, that the amount of non recyclable rubbish being sent to recycling centres, particularly around the festive period, would be reduced. Should this be a knock on effect this would reduce the amount of money spent on sifting out the large swathes of non recyclable rubbish.</p> <p>Ultimately it would be hoped this type of obvious labelling system could be extended further.</p> <p>Wales has often been at the forefront of introducing policies to reduce waste and improve recycling, notably the plastic bag charge. It is hoped a similar strategy could be taken here.</p>

Microprocessors have been found to reduce a patients energy expenditure, increase self-selected walking speed, increase walking speed on uneven terrain, and reduce stumbles and falls. NHS England reported that one study conducted on the microprocessor found there was a 64% decrease in the number of falls and a 59% decrease in the number of stumbles, therefore reducing patient injuries.</p> <p>They are more expensive than standard prosthetics and there are unfortunately no published studies that analyse long term cost effectiveness within the UK. However, studies from other European countries such as Italy and the Netherlands reported a long term reduction in medical and care costs compared to currently used</p>	<p>Did not collect sufficient signatures (50)</p>

		<p>prosthetics. Effective stabilisation can reduce future medical problems often experienced by amputees such as back pain, arthritis and hip replacements.</p> <p>Patients who have access to the microprocessor knees have been able to return to work quicker than those without, and have been able to experience a greater quality of life.</p> <p>Patients within Wales should be able to receive the same care as those within other areas of the UK. Losing a limb is a life changing event, and having better suited prosthetics makes returning to “normality” easier and less frustrating.</p>	
February 2019	Change Building and Planning Regulations to make Changing Places compulsory	<p>I am calling on the Welsh Assembly to make urgent changes to building and planning regulations to ensure that Changing Places toilet facilities, with adult changing bench, hoist and enough space for 2 carers, are provided in all large public buildings as they are built, redeveloped or refurbished.</p> <p>There are more than a quarter of a million disabled people across the UK who need the facilities a changing places toilet offers.</p> <p>British Standards 8300/2018 says that Changing Places toilets should be provided in larger buildings and complexes, such as:</p>	The petitioner is not resident in Wales.

<p>February 2019</p>	<p>We call on the National Assembly for Wales to urge the Welsh Government to consider the implementation of additional safeguards facilitating greater and clearer enforcement of the 2004 Fox Hunting Act; in Wales.</p>	<p>We call on the National Assembly for Wales to urge the Welsh Government to consider the implementation of additional safeguards facilitating greater and clearer enforcement of the 2004 Fox Hunting Act.</p> <p>Fox Hunting law is utterly inadequate and is regularly flouted with impunity. The petitioners would respectfully request that the Committee consider the implementation of the following additional safeguards.</p> <p>1. The muzzling of all sport hounds.</p> <p>Under current legislation, the legal hunting of foxes, with more than two dogs, currently takes the form of either drag or trail hunting.</p> <p>It therefore cannot logically or successfully be argued that the muzzling of fox hounds – or other dogs such as terriers – would affect the outcome of the sport.</p> <p>We therefore call on the Welsh Assembly to consider the obligatory muzzling of all sport hounds used in drag and trail hunting.</p> <p>This will, additionally, limit the ‘accidental’ slaughter of foxes, and serve to protect the hunt members from prosecution for breaching the Hunting Act.</p> <p>2. Obligatory pre-hunt publication of the route of the artificially laid trail.</p> <p>It is also clear that during preparations for a drag or trail hunt, a scent is artificially laid.</p>	<p>Non-devolved.</p> <p>The issue is the responsibility of the UK Parliament.</p>
----------------------	--	---	---

		<p>Therefore, the individuals and organisations who are responsible for the hunt must be aware of the geographic location of this scent or trail before the hunt itself.</p> <p>We therefore call on the Welsh Assembly to consider the obligatory publication – to an official third party such as the Police – of the route of the artificially laid trail, at least 24 hours before the commencement of the hunt.</p> <p>3. The banning of animal-based scents.</p> <p>It would be extremely foolhardy to use fox urine as a scent and not expect the hounds to also follow live foxes.</p> <p>So, we additionally call on the Welsh Assembly to consider a ban on animal-based scents during trail hunting, which, the petitioners believe, could potentially be a loophole in current legislation.</p>	
February 2019	Holding representatives to account	<p>Whilst elections are often held roughly every 5 years, a lot can change or happen during those 5 years.</p> <p>With the recent examples of elected representatives who leave the party who's name and manifestos they ran on, or potentially avoiding votes about or voting against their constituency's interests, there is very little ways for the local body to hold their representatives to account or challenge their activities in between elections.</p>	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

March 2019	Remove the 3 month ban on donating blood for gay and bisexual men	<p>There is currently a restriction on men who have sex with men from giving blood, where they cannot donate blood if they have had sex with another man within the last 3 months, even if protection is used. Heterosexual men can have unprotected sex with multiple partners – complete strangers – and still donate blood, while a gay/bisexual man who practises safe sex with a known partner is excluded for a three-month period. These men are being prevented from donating blood for no good reason. There needs to be a greater effort to create a fairer system for gay and bisexual men who want to donate blood. Shoppers and in particular elderly visitors and residents of the town will be particularly inconvenienced when shopping at the top end of town as it quite a substantial walk to the bottom of town and back to use the alternative public toilets located in the visitor centre, therefore a challenge for people who have mobility medical or continence issues. Caerphilly welcomes hundreds of tourists to the town each year and basic facilities such as public toilets are one of the main considerations tourists consider before deciding to visit places of interest. Closing the public toilets will risk putting off tourists visiting the town and impinge on the much needed boost to the local economy of Caerphilly. April 2019	Complete By-Pass Road from Pontygwaith to Maerdy	Support completion of the Rhondda Fach by-pass road from Pontygwaith to Maerdy. As this was in the original plan, and the number of heavy vehicles negotiating the busy main streets of Tylorstown and Ferndale seems unlikely to reduce, it may well be prudent to complete that outstanding phase of the by-pass road. We, the residents would respectfully request that the by-pass should be completed in the near future.	The issue is the operational responsibility of a local authority.
April 2019	Abolish the need for Royal Assent for NAFW Acts	We call on the National Assembly for Wales to: –Abolish/Remove the need for Royal Assent on Bills in order to become Acts. –Allow Assembly Members to choose from taking an oath to the people of Wales, rather than the monarch.	Neither the Assembly nor the Welsh Government have any powers over this issue.
April 2019	Fair funding for every schoolchild in Penarth and Wales. End the school funding crisis across Wales now	We call on the National Assembly for Wales to urge the Welsh Government to fund schools in Penarth, the Vale of Glamorgan and all over Wales fairly and sufficiently. Our children deserve the best start in life and their teachers and school staff deserve enough money to provide this safely and to the highest standard. A cluster of eight of our schools in Penarth are facing a funding crisis – a £1 million deficit this year, predicted to double next year.	The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.

		<p>Desperate measures are being taken: head teachers are cleaning school facilities at weekends to earn rent; there are redundancies and teachers have to take on other paid work. At least one school's governing body is looking into the possibility of closing on Friday afternoons which would create difficulties for working parents and teachers. Next, we hear our children's health and safety may be at risk.</p> <p>The Penarth Head Teachers' Cluster have released a letter (see the letter text in the additional information section) stating that they believe the children of Penarth and the Vale of Glamorgan are not being treated equally with their peers in Wales due to the inequality of the funding across the 22 different Authorities.</p> <p>The Well-being of Future Generations (Wales) Act 2015 states, "A more equal Wales – where everyone has an equal chance whatever their background".</p> <p>School funding is in crisis across Wales, yet the Welsh Government is expecting the introduction of a new curriculum; a new additional learning needs bill and for schools to produce 1 million Welsh speakers.</p> <p>We already know that children in Wales achieve lower PISA scores than children anywhere else in the UK and have done for several years. But it's not just about academic achievement – our schools should be able to provide all-round education and support for all of our children to thrive.</p>

		School funding is an issue across the UK but in Wales more than anywhere else we need our Government to act now to solve this crisis.	
April 2019	Ensure that the Animal Welfare Act is being applied correctly in relation to horses	In April two separate incidents of alleged animal cruelty towards two horses in Wales have been reported widely in the press. These incidents were dealt with differently by the two Police forces, with one of the poor animals returned to its owner. If this was a child it would be removed from its parents until at least an investigation had taken place. There needs to be clear guidance on how the Animal Welfare Act should be applied in incidences where pain and suffering to horses (and other animals) has occurred. Soon Cofiwch Dryweryn murals were springing up all over Wales in solidarity too and a movement was born. From children painting rocks in their school gardens to pensioners painting their garden gates. It was a real zeitgeist moment of remembering our country's rich culture, history and language.</p> <p>However Bridgend County Borough Council have taken it upon themselves to write to the elderly landlord of the shop where the mural was painted threatening to take him to court, to prosecute him to the full letter of what they believe to be the law. We tried the office of the Chief Exec, the Leader of the council, the planning dept director of services, the dept manager and the team leader who sent the letter. We even went in person to the offices but none was "available" to speak to us at all as everyone, every staff member was in a meeting.</p> <p>So we call upon BCBC to rescind their threats of court action and fines contained in the letter, we ask them to write to the landlord of the property to apologise in full for the distress and upset they have caused him over the matter and for them to issue a public apology to the people of Wales for their disregard for our Language, our History and our Heritage. We also seek assurances from the Leader of the Council and the Chief Exec that this situation will not happen again.</p>

<p>Submitted February 2019  Closed 7/8/19</p>	<p>Start a scheme like Nest but for adding sound insulation between terraced houses</p>	<p>Old terraced houses often don't have enough sound insulation in the walls. Flats often don't have enough sound insulation between floors. A scheme to sound-insulate properties for free for people on low income would improve quality of life for people in terraced houses and flats.</p> <p>The Nest scheme allows people on low incomes to get thermal insulation and energy efficiency upgrades in their homes for free, even if they are renting.</p> <p>I am writing this as an autistic person with sound sensitivity living in a terraced maisonette, whose mental and physical health are severely negatively affected by the noise from the shop downstairs and the houses on either side.</p>	<p>Did not collect sufficient signatures (50)</p>

With nothing more than a tarpaulin to keep them out of direct sunlight.</p> <p>We need to think twice before mistaking animal abuse for pleasure/entertainment! These donkeys and mules are exhausted, spending long days in the scorching sun, carrying tourists.....with little to no water, food or shade... please help me raise awareness and STOP this from going on any longer!!</p> <p>HELP ME TO HELP THEM!!!! <p>September 2019</p>	<p>Free travel for college students</p>	<p>Recently my sister has enrolled into college and my parents have had to spend a considerable amount of money to get her a travel ticket. This adds up to £100 a year on first cymru buses. This is ridiculous as I belong to a family of 6 and we cannot afford to waste that kind of money. Some sort of transport should be eligible for college students to have to get back and fore to college which would be very helpful to parents and guardians who are not financially stable to spend loads on travel for their young adults.</p>	<p>The title or the petition does not contain a clear call or request of either the Assembly or the Welsh Government.</p>

Even young people under 18 do work, their minimum wage is low and cannot work for as many hours as over 18s.</p> <p>We also need free bus passes for 19–21 year olds as many of these ages go to university or start an apprenticeship, and these require a significant amount of expensive travel, especially when attending university away from home.</p>	
<p>September 2019</p>	<p>Stop Cutting Funding To Colleges That Don't Make Welsh Bac Compulsory</p>	<p>Welsh Bac has recently been made a compulsory A Level throughout many Sixth Form colleges in Wales. This decision has been made in many places not because it helps pupils in any way, but because they do not receive necessary funding if they do not do it. It is argued that this teaches student necessary life skills, however the majority of students and many lecturers disagree. This has many negative consequences that students feel are being looked over.</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier.</p>

September 2019	Stop Fly-Tipping	Fly tipping is getting more and more of a problem and i propose that the councils should be given the powers to seize the vehicles from the owners thats caught or seen with video or pictures taken of the people fly tipping from said vehicle .  The said vehicle that been seized is to be sold at auction and proceeds from the sale would be to purchase covert cameras to be erected on hotspots where known fly tipping takes place	The actions called for in this petition are already taking place. <p>September 2019</p>	<p>Fair Funding For Councils</p>	<p>UNISON Neath Port Talbot Branch believes that all Councils in Wales are under extreme budgetary pressures, with some service provisions lost and others on the verge of collapse. Councils have eliminated wasteful spending and are now at the position where they need to consider closing non-statutory services such as parks and leisure in direct contradiction of Welsh Government legislation such as the Future Generations and Social Services and Well-Being Acts, and are now down to the bare bones when delivering services.</p> <p>Councils in Wales require additional funding to maintain the services provided to the most vulnerable within their Boroughs. Councils are the major employer in their areas and any reduction in funding will also have a detrimental impact on employment and the ability for these vital services to be sustainable and to remain in-house. Budget cuts will result in more deprivation in our communities, and compulsory redundancies with services gone forever. Every million pounds not allocated equates to 25 teachers lost from schools.</p>	<p>The petition is the same as, or substantially similar to, a petition which is open or was closed less than a year earlier</p>

		<p>Lack of funding provided to Councils results in disruptive, costly and poor quality service provision; the loss of employment opportunities; the depletion of reserve budgets; and most importantly the loss of democratic accountability if services are lost to the private or third sector. We fully support Welsh Government’s vision that everyone in Wales should live in well-connected, vibrant, viable, sustainable communities with a strong local economy and a good quality of life. For this vision to succeed we must safeguard public services which will in turn ensure the safety and wellbeing of our residents with better outcomes for all.</p> <p>Wiser allocation of finances is essential to ensure a vibrant, integrative social care model fit for the 21st century. Councils require transformational funding to be awarded to them in order that delayed transfers of care from hospital provisions is not the outcome for vulnerable residents.</p>

An outcome of this may be that Council tax rates may have been inflated only to discover at a later date that settlement figures would have allowed more flexibility.</p> <p>Councils are the major employer in their areas and any reduction in funding will also have a detrimental impact on employment and the ability for these vital services to be sustainable whilst remaining in-house.</p> <p>We fully support Welsh Government's vision that everybody in Wales should live in well-connected, vibrant, viable and sustainable communities with a strong local economy and a good quality of life but in order for this vision to succeed, we must safeguard public services which will in turn ensure the safety and wellbeing of our residents across Wales with better outcomes for all.</p>

October 2019	Ban Puppy Farming	<p>I cannot believe no one in government is listening whilst all over the UK cruelty is being inflicted hourly in dogs for profit. The dogs are bred TIL they bleed then they are either drowned or shot and discarded on a heap of bodily heap of discarded used dogs. They are not monitored by vets, live in disgusting conditions where they sit in their own faces and urine burning their paws. The female dogs are raped daily put in a metal harness so they can't run free and raped again and again . Just because it's a dog doesn't mean it's not rape think about it. I have rescued three Shihzhu 's one male he is doing ok but came into rescue thin under nourished , fleas , worms and badly burnt paws from standing in one place day after day in his own urine. Then I have my two girls now their life was unbearable cruel just like my boy dog same state eyes ulcers as well. Why an earth do councils hang out licences to these people surely as you drive to their premises it says it all shame in the councillors and the government for allowing extreme cruelty to be inflicted in these innnonce digs . I know my words will mean nothing you may not ever bother to read them because it's just another boring campaign you are having to address but just for one day you walk in those paws you experience the life they have to live and think would I want this no. October 2019	Pass a Motion to Condemn the Treatment of Catalan Politicians and Civilians	<p>We call upon the National Assembly for Wales to pass a motion that condemns the use of police violence by the Spanish State against civilians in Catalonia, and to express disappointment that senior Catalan political figures have been given hefty gaol sentences for carrying out their democratic mandate.</p> <p>We do not ask for much; we ask for no money and no action other than a simple motion. A motion passed on behalf of the people of Wales to recognise that the treatment of Catalan politicians and civilians currently seen in Spain is wrong, and does not have a place in a liberal democracy.</p> <p>We would like the motion to express support for a political solution negotiated between Spanish and Catalan institutions that will avoid further conflicts and will not require judicial avenues to be sought for what is fundamentally a political problem.</p> <p>We suggest a motion that reads:</p> <p>"The National Assembly for Wales condemns the use of police violence by the Spanish State against Catalan civilians. November 2019	Protect our playing fields	I call upon the welsh assembly to urge the welsh government to protect our playing fields. In Bridgend the fees for playing fields has been increased by an extortionate 500 %. Playing fields should be encouraged to be used. Encouraging our communities to stay healthy by exercising. Bringing the community together, those of all ages. Giving the youngsters new skills and a place to socialise and make friends safely. Enjoying the fresh air and the scenery our communities have to offer. Playing sport is a lifeline to some that struggle with mental health. Future youth should have the opportunity to play. I understand that there needs to be increases in costs, however for there to be a such an extortionate increase is going to cause many issues for the communities. We should be encouraging an up take of sport not putting it at risk by increasing fees.	The issue is the operational responsibility of a local authority.

November 2019	Teach politics in every school in Wales	<p>As a functioning democracy, the people of Wales need to be properly taught about our political systems and institutions. As it stands, not enough people in Wales know enough about devolution and devolved powers, or even the difference between the Welsh Government and the Senedd. Welsh politics also has a distinctive and unique history, and young people deserve to learn about how this has shaped our country over the centuries.</p> <p>Given the political complexities over the last few years due to Brexit, as well as the changes currently taking place at the Senedd, it is more vital than ever that we properly equip young people to understand politics, its importance and how it affects our lives, as well as the wider world. With it looking likely that 16 and 17 years olds will be able to vote in Senedd and local government elections, teaching politics in schools is more vital than ever. December 2019	NO TO PEN Y FFRIDD DEVELOPMENT	Pen Y Ffridd is a street that was built back in the early 1900s where there were no cars, fast forward to 2019 we live in a society where each household has a vehicle of some kind and the Pen Y Ffridd Main Street is already struggling to cope with the amount of vehicle traffic it faces. The Gwynedd Council want to build 30/40 new houses at the back of our road, but they don't realise the consequences. We always hear the Government talk about democracy but despite multiple objections from the residents on the street, the local council has refused to listen. The dust, noise and light pollution this development creates is not to be forgotten. Pen Y Ffridd is already a road with narrow access and barely any parking just imagine those lorries and trucks coming in 24/7!! Please help us by signing this petition!  Democracy to be valued! February 2020	Lower the voting age age to 16	Voting age for the NAOw should be lowered to 16 because this would give younger people the opportunity to vote on their future. I feel that if the voting age is lowered it will give further incentive to young people to engage with politics and take responsibility for their future. The age of consent is 16 and people can learn to drive at 17 so why can young people not vote at this age. With the development of PSE in the curriculum young people have a better understanding of politics and the importance of voting. If people are engaged in politics at an early age this will serve them well throughout adulthood.	The actions called for in this petition are already taking place
February 2020	CAP THE TAX 2020	Council tax is a regressive form of local taxation. In Wales, the Welsh government has refused to cap rises in Council tax. This is no longer sustainable. Passing the buck to Local Authorities in Wales to set the level of Council tax residents pay has seen inflation busting, ever higher Council tax rates. In Conwy in 2019 Conwy County Borough Council levied an eye-watering 9.6 per cent increase in Council tax!. This is excessive and with this staggering increase came draconian cuts to services. Enough is enough. Time to CAP THE TAX. The Welsh Government can no longer pass the buck. Poverty-creating Council Tax rises inflicted by County Councils have caused misery. This year again, inflation busting rises will happen again and yet more cuts. Capping the tax gives families a fair deal. To do otherwise is to kick families in Wales in the teeth. February 2020	Revise the 2020/21 draft budget	<p>First Minister – we petition you on behalf of the 1,500 schools in Wales serving more than 400,000 children and young people and we implore you to use the 2020/21 budget to deliver the investment in schools in Wales that we so desperately need.</p> <p>The proposed expenditure on education set our so far of £1.78 billion does not come close to repairing the damage done to education spending due to the years of austerity.</p> <p>Budget highlights include £8m funding for ALN, but this will do nothing to address needs of schools where children need additional support. With 120,000 with ALN in Wales, £8m equates to £66 per child which is an insult to the pupils and their families who are battling so hard to get their children the education they deserve and puts school leaders in an impossible position.</p> <p>£25m on rolling out a new curriculum in Wales is all well and good but when schools are in deficit positions, struggling to retain good teachers and support staff, and school leaders are coming under increased pressure, the new curriculum, although welcomed, could see schools struggling to deliver.</p> <p>The announcement of £15m to help with the professional learning of teachers is positive, but we still need good teachers to deliver it. February 2020	Block the reintroduction of the Severn Bridge tolls	<p>There are suggestions that there will be a reintroduction of the tolls on the Severn Bridge at some point in the near future. This is supposedly aimed to help reduce the increase in congestion, mainly around the Brynglas Tunnel.</p> <p>Recently the Welsh assembly scrapped any plans to build the M4 relief road around Newport which would have dramatically reduced congestion, costing the tax payer an estimated £114,000,000</p> <p>To waste this money and stop any further planning, and then allow the reintroduction of tolls would be outrageous.</p>	The issue is the responsibility of the UK Government.

		<p>The tolls firstly only create more traffic. As someone who drives this bridge at least 5 times a week, since before the tolls were closed and after, I can say that the tolls only make it worse.</p> <p>We should not have to pay for the government shortcomings</p>

March 2020	Tax for single-use plastic non-biodegradable packaged products that contribute to environmental pollution.	I wish to request for the Welsh Government to consider the introduction of an environmental tax for all single use non-biodegradable products used by households day-to-day that contribute to land and ocean pollution. Examples of these are: vegetable and fruit single plastic wrappings – totally unnecessary to the consumer and so damaging to the environment. For biodegradable plastic, a tax also needs to be applied as studies have found that most biodegradable plastic will only break down in temperatures of 50C. They are also not buoyant, making them highly unlikely to sink and be therefore exposed to UV rays and break down in the ocean. For the Welsh Government to consider the development of legislation to ensure that from 2021 supermarkets have a legal obligation to supply consumers with plastic free staple grocery products for consumption such as fruits, vegetables, coffee, tea, milk, bread. Plastics, bioplastics and microplastics, have ecological, social, health and economics costs that suppliers of plastic products and consumers need to be aware of. Submitted March 2020  Closed 20/03/20	The Welsh Government should follow WHO guidelines and 'TEST, TEST, TEST' to identify people with Corona Virus	Today the Director General of the World Health Organisation stated that countries should test people displaying Corona Virus symptoms in order to identify the scale of the problem. This makes complete sense – one needs to know what the size of the problem is in order to plan. We have never before faced an outbreak that is such a threat – please follow the advice of the experts and make testing our strategy now.	Did not collect sufficient signatures (50)

<p>March 2020</p>	<p>Restrictions on non-essential travel</p>	<p>The Coronavirus (Covid-19) pandemic should have led to numerous restrictions to help halt the spread of the disease. The announcement by the National Trust that they were opening their outdoor areas to all the public will only encourage people to flock from great distances to visit these places. Then on 21/03/20 upon reading online in the news that thousands have flocked to climb in Snowdonia National Park, some, I imagine, from great distances. There's seems to be little thought of the importance of social distancing and essential travel, both of which are crucial measures, that are meant to be actively deployed in the UK currently to help reduce the deaths and to reduce the strain on the NHS caused by the Coronavirus outbreak. This is the appropriate time to consider closing down National Parks and other outdoor public spaces. This isn't without precedent as this was done UK wide in light of a zoonotic Foot and Mouth disease. This is about protecting human lives. We need to take similar action now.</p>	<p>Aspects of the petition are not within the powers of the Assembly or Welsh Government. Clarification over changes was sought from the petitioner but no response was received.</p>

With spring coming it would be nice to sit in our garden and let the kids play out there and enjoy a glass of wine but it is now so expensive. March 2020	Close Schools and Colleges and stop public gatherings in order to contain the spread of COVID-19	The unprecedented effect of Coronavirus could have a substantial difference to life in Wales. With contagion levels higher than the flu and with a death rate of 3.4% it is important that we take a precautions necessary to protect the Welsh public. We believe Wales should take actions similar to Ireland banning outdoor gatherings with numbers higher than 500 and indoor gatherings higher than 100.	Did not collect sufficient signatures (50)

They don't have an alternative – if they can't find the free from food they need they will just go without food instead.</p> <p>Please enable food allergy sufferers to not only food shop but also buy the specific allergen free products they need now they're at so much risk.</p>	Did not collect sufficient signatures (50)
Submitted March 2020 Closed 29/03/20	CONSTRUCTION COMPANY CLOSURES DUE TO CORONA VIRUS –	<p>In light of the stricter restrictions placed on our lives at home and at work due to the Corona virus, the Government has provided the Nation with strict instructions and identified which job roles are classified as "Key Workers"- rightly so to keep our Country running in this times of crisis.</p> <p>The Government however deem it to be safe STILL for all Construction workers to remain at work, on site, so long as they are 2 meters apart.</p>	Did not collect sufficient signatures (50)

	<p>IMMEDIATE EFFECT</p>	<p>This is absolutely unacceptable and not at all doable. At this late stage also, one would assume there is lack of safety / hygiene equipment left to provide workers with to prevent the potential virus from spreading.</p> <p>The Government need to take the health and safety of our construction workers seriously as the Scottish Government has and send them home.</p> <p>Across the board, family members who are most vulnerable are essentially being "forced" to work as they cannot risk the financial burden / complications of not working, whilst the companies continue business as normal.</p> <p>I am not naive to the financial complications of businesses – it's a very challenging time, HOWEVER, Human rights, Health and Well-being MUST be the main priority and the Government MUST put a stop to this.</p> <p>Surely a building site where there are groups of individuals, in close proximity, in your "typical" construction site environments would be deemed as a high risk?!</p> <p>This petition is to gather signatures and support for the well-being of our family members who are in this situation. A means of creating action to be implemented immediately.</p> <p>To conclude, the purpose of this petition is for the Government to take action, to close down all Construction Sites / Businesses imminently.</p>

<p>March 2020</p>	<p>Covid-19 and residences fees</p>	<p>Covid-19 has caused much anxiety amongst students, and many students have moved home due to this virus. In these uncertain times financial security is important for students and many are now paying for residences they are no longer using, adding to debt later on as many rely on student finance payments. This is a particularly pressing matter as social distancing measures and economic effects of these may also prevent students from working over summer to save money, therefore not paying that residence installment essentially for a place they no longer reside is surely not to be expected.</p>	<p>The petitioner is not resident in Wales.</p>

<p>April 2020</p>	<p>We call on the Welsh Parliament to urge the Welsh Government to conduct a rapid review and change of death certification to include a field for ethnicity, and a mandatory requirement for this information to be captured.</p>	<p>There is a pressing need to address the paucity of ethnicity monitoring data in Wales. The Coronavirus Pandemic is making health and social inequalities clearly evident and within this crisis, swift action needs to be taken. This petition is rooted in the need for one specific change: include a field for ethnicity in the death certification process, and a mandatory requirement for this information to be captured. A medical certificate of cause of death (MCCD) not only enables the deceased’s family to register the death, it also provides a permanent legal record of the fact and circumstances of death. The petition is framed within the following context:</p> <ul style="list-style-type: none"> <li>• The modifications to the death registration process made as part of the Coronavirus Act 2020 (1);</li> <li>• Written statement by the Welsh Government 21 April 2020 on the subject of COVID19 and BME Communities, presented by Vaughan Gething, Minister for Health and Social Services (2);</li> <li>• The rising alarm in the UK (and beyond) on the impact COVID19 is having on minoritised populations (3), including those living in Wales (4);</li> <li>• The emerging evidence on the impact COVID19 is having on specific population groups in Wales (5,6);</li> <li>• The revelation that some Welsh health boards have a higher representation of employees from BME backgrounds than in the local population, with one example being that in Hywel Dda LHB, 6.8% of the</li> </ul>	<p>The issue is the responsibility of the UK Parliament.</p>
