

## **P-04-326 No to Incineration**

### **Petition wording**

We call upon the National Assembly for Wales to urge the Welsh Government to revise its planning policy and policy on residual waste to provide a presumption against the building of incinerators, which send most of the carbon from waste into the air as CO<sub>2</sub>, emit ultra-fine particles that can be damaging to health, and create toxic ash. We believe that incineration is bad for the environment and bad for people.
