

P-05-979 Adopt the policies of UK government with regard to easing of lockdown rules

This petition was submitted by Georgina Stanger having collected a total of 96 signatures.

Text of Petition:

Many Welsh people feel that they are being unfairly kept in lockdown at a time when people living in England are being given more freedom. They are also worried about their jobs and small businesses and feel that the stance taken by the Welsh government will hinder central government's attempts to unlock the economy.
