Background

These Regulations are proposed to be made by the UK Government pursuant to sections 8 and 8C of and paragraph 21 of Schedule 7 to the European Union (Withdrawal) Act 2018.

Summary

These Regulations amend both domestic and retained direct EU legislation to ensure that the regulatory regimes for veterinary medicines and residues surveillance remain operable and enforceable in the United Kingdom (UK) after the end of the Implementation Period (IP), and that the UK meets its obligations under the Protocol on Ireland/Northern Ireland to the withdrawal agreement.

The amendments also introduce light touch regulatory controls on medicines that are approved in Northern Ireland and not Great Britain and that move from Northern Ireland onto the Great Britain market. These controls are necessary to ensure that the UK regulator, has the necessary assurances of safety quality and efficacy for medicines on the UK market

for the purposes of ensuring public health, animal health and welfare and consumer safety.
