

P-04-434 : The Welsh and Somalilanders have common love of poetry

Petition wording:

We call upon the National Assembly for Wales, a nation known worldwide for its love of poetry, to applaud the similar love enjoyed by its citizens of Somaliland descent whose traditional culture considers poetry to be the core form of cultural expression. Our call comes at the start of the Olympic Truce, that period which extended from one week before to one week after each Olympic Games in the ancient era enabling athletes to travel unhindered through the lands of traditional enemies to compete in the spirit of ekecheiria, the holding of hands. And as citizens of Wales, as lovers of poetry and being committed to striving for peace within and between all nations, we welcome the National Eisteddfod of Wales which we believe to unite these values and we invite all to add their names to this petition and we hope you will promote communities to communities links between our two nations.

Petition raised by: Mr Abdikarim Abdi Adan

Date petition first considered by Committee: 6 November 2012

Number of signatures: 30
