

P-05-1085 Make anti racism training compulsory for all elected Councillors and Members of the Senedd in Wales

This petition was submitted by Jennifer Geroni having collected a total of 142 signatures.

Text of Petition:

Structural racism places Black and ethnic minority groups in Wales at a significant disadvantage. All elected representatives funded by the taxpayer have a duty to uphold principles of fairness and equality for all. Anti racism training will provide them with a better understanding of structural racism and equip them with the tools to help dismantle it. This is an important mechanism for moving the conversation forward at both a national and local level.
