P–05–1144 Re–open garden centres in Wales as soon as it is possible

This petition was submitted by Nicola Pugh, having collected a total of 11,217 signatures.

Text of Petition:
Re–open garden centres in Wales as soon as it is possible:
– Gardening keeps people at home
– Gardening brings significant mental and physical benefits
– Garden centres are large, airy spaces with excellent safety measures in place
– The plant supply chain cannot be switched off and on. In many cases plants go to waste if they cannot reach garden centres
– Online, click and collect and home deliveries are not the answer. They are particularly difficult for independent garden centres.
