

P-05-1156 Match the funding for small businesses during lockdown with England – including the restart grant

This petition was submitted by Sally Gillard, having collected a total of 2,458 signatures.

Text of Petition:

In Wales, small businesses have received the smallest level of funding of all UK nations during the third national lockdown – despite being locked down for longer.

As of today, Rishi Sunak also announced a restart grant for small businesses to help with re-opening of businesses.

I urge the welsh government to support our smallest businesses properly, and match the grants provided to small business owners in other uk nations.

Additional Information:

Rishi Sunak – budget March 2021

Comparison of funding of all UK nations for lockdown 3 is available by checking each nations funding on government websites.
