

P-05-1104 Make any measures being brought in for Covid be subject to a vote in the Welsh Parliament, Correspondence – Petitioner to Committee, 01.03.21

I think its an absolute disgrace that the 1st minister can bring in rules in the name of covid without a vote prior to the change.

The prime example is the fact that supermarkets can't sell non essential.. essential items and this was brought in with no vote. This has resulted in me not being able to purchase toys for my son who is less than 1 years old and needs new toys frequently.

There should be due diligence.
