Background

These Regulations are proposed to be made by the UK Government pursuant to section 8(1) of the European Union (Withdrawal) Act 2018.

Summary

These Regulations revoke redundant retained direct EU legislation which forms part of the plant protection product and maximum residue level regulatory regimes, so that these regimes can continue to operate effectively following the end of the implementation period. The revocations concern direct EU legislation which came into force towards the end of the implementation period and so was not addressed by earlier EU Exit SIs in relation to this subject matter, but which is given effect in Great Britain through transitional provisions in earlier EU Exit SIs and the national statutory registers. As a result, the retained direct EU legislation to be revoked is no longer required. They are now being removed so that they do not remain on the statute book.
