Dear Paul

### **The Sea Fisheries (Amendment) Regulations 2022**

The above named regulations (the “2022 Regulations”) relate to measures which apply to the seabass fishery which extends beyond the Welsh Zone. In order for them to be effective, they need to apply on a UK basis and apply to all vessels operating in UK waters. In particular the 2022 Regulations make amendments to the quantities of seabass that can be retained as bycatch during the operation of fishing gears being used to target other species. The measures will extend the avoidance of the wasteful discarding of seabass.

These measures were agreed with the European Commission during the consultations on shared fishing opportunities for 2022 which concluded in December 2021.

I have given my consent to the Secretary of State for Environment, Food and Rural Affairs to make the 2022 Regulations, so the provisions therein apply in Wales. The 2022 Regulations were laid before the Houses of Parliament on 29 April and the SI is subject to the negative procedure.

When there is a need to maintain regulatory fisheries frameworks across the UK, it is appropriate I consent to the UK Government legislating on our behalf on the seabass fishery which is shared with other Administrations in the UK.
