

P-06-1284 Keep schools open in Spring term 2022. Enough is enough

This petition was submitted by Bianca Simpson Lepore, having collected a total of 909 signatures.

Text of Petition:

Children have suffered enough during the pandemic and really do need their school life to remain as normal as possible. Reasonable adaptations are fine but closing schools down has so many clearly documented harmful effects that it surely just can't be justified further.
