Dear Jocelyn,

I am writing in response to the supplementary question you raised during Plenary on the 1st April requesting that I "...publish what money the Welsh Government spends on sport, by sport and by gender."

As you will be aware funding for sport in Wales is principally channelled through Sport Wales who allocate to national governing bodies of sport in Wales based on agreed development plans. Sport Wales are not able to provide a split of funding by gender but they have provided the attached table which illustrates how much funding is allocated to individual sports.

Best wishes,

John Griffiths AC / AM
