

P-06-1275 Call on the Government to reconsider its decision to withdraw from the Llanbedr bypass scheme

This petition was submitted by Annwen Hughes, having collected a total of 2,704 signatures.

Text of Petition:

Following months of constructive discussions, the Government withdrew from the scheme to build the bypass at Llanbedr, Gwynedd, based on flawed information in their report.

Not only will abandoning the bypass be detrimental to the environment as hundreds of cars will continue to queue in the village, the decision is also a huge blow to any hopes of developing high quality jobs at the airport – the main hope of providing good work for our local people in this part of Meirionnydd.
