Senedd Cymru | Welsh Parliament

Pwyllgor Newid Hinsawdd, yr Amgylchedd a Seilwaith | Climate Change, Environment, and Infrastructure Committee

Adolygiad o flaenoriaethau'r Pwyllgor ar gyfer y Chweched Senedd | Review of the Committee's priorities for the Sixth Senedd

Ymateb gan Sun Solar | Evidence from Sun Solar

Your views

1. What are your views on the Committee's three strategic priorities: Climate Change; Sustainable Communities; and Protecting and enhancing the natural environment?

I think the governments priorities are wrong. Wales hasn't recovered from the mess created by the lockdowns. This should be a priority above everything else.

2. To what extent are the Committee's three strategic priorities still relevant, reflecting on social, economic and environmental developments since they were set at the start of the Sixth Senedd?

All climate projects should be on hold until Wales prioritises the destruction the lockdowns and decisions made during the covid scandal. It is unfair on the people of Wales to be railroaded into more unnecessary changes at this time.

3. What are your view on the Committee's detailed priorities/outline programme of work for Years 3 to 5 of the Sixth Senedd (set out in its report, Priorities for the Sixth Senedd?)

Please concentrate on getting Wales back to a place of prosperity. It seems like this government is hell bent on its destruction. Back off with the climate agenda and allow businesses to recover from the harm caused by lockdowns.

4. To what extent are the Committee's detailed priorities/outline programme of work still relevant, reflecting on social, economic and environmental developments since they were set at the start of the Sixth Senedd?

Please focus more on things that are truly important to wales and back off from the green washing.

5. Are there any other matters related to the Committee's priorities/work programme/ways of working that you would like to comment on?

Welsh government as a whole have their priorities completely wrong.. At this rate with the 20mph limit being introduced I will be moving business over the bridge.. Logistics are not practical in Wales at that speed. Dreadful.

6. Other information

We are a that supplies solar for green energy. Give us a break.. Wales is a mess.
