Dear Paul,

### Consideration of proposals for Sustainable Farming Scheme

The Climate Change, Environment and Infrastructure Committee (the Committee) has agreed to undertake a short piece of work on the Welsh Government's **proposals for a Sustainable Farming Scheme** (SFS).

The Committee will be holding a stakeholder event on Wednesday 13 March to gather views on the proposals from a range of organisations and individuals. Given your Committee's shared interest in the SFS, I would like to invite your Committee to take part in the event.

To further inform our work, we will be holding oral evidence sessions with representatives from the farming and environmental sectors, among others, at our meeting on 21 March. The sessions will focus on the environmental aspects of the proposals as they relate to the Committee's remit. Should any of your Members wish to participate in the sessions, they are, of course, welcome to do so.

If you or your Committee's members require any further details, I would be happy to meet to discuss. Alternatively, the Clerking team will be available to answer any queries from you or your Clerking team.

Regards,
