21 February 2024

Dear Rhys

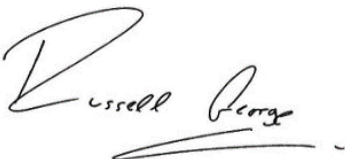

The Health and Social Care Committee is currently undertaking an inquiry into supporting people with chronic conditions. In particular, the Committee is looking at how to deliver the vision of holistic, person-centred care for people with chronic conditions.

At its meeting on 24 January 2024, the Committee heard evidence from Prof Jim McManus, National Director for Health and Well-being, Public Health Wales, about ensuring people with chronic conditions receive care and support to give them the best possible health outcomes. He highlighted care for people living with HIV as an area of good practice.

The Committee would be interested in hearing examples of services for people living with HIV that provide care in a person-centred way and learning what makes them successful. In particular, we would like to hear about any collaboration between different services to provide wraparound care and support for people living with HIV.

We would be grateful if you were able to provide us with some written evidence on these points, and would welcome a response by the end of March. If you would like to discuss further, please do contact the clerking team and they will be happy to assist: seneddhealth@senedd.wales.

Yours sincerely

Russell George MS

Chair, Health and Social Care Committee

Croesewir gohebiaeth yn Gymraeg neu Saesneg. We welcome correspondence in Welsh or English.
