Peter Fox MS

Chair

Health and Social Care Committee

7 January 2026

Dear Peter,

Petition P-06-1550 Place the drug Xonvea on to the fomulary for the management of nausea and vomiting in pregnancy

The Petitions Committee met on 8 December and considered the above petition, submitted by Sarah Spooner.

The Committee took a moment to recognise the women who had shared their distressing experiences of Hyperemesis Gravidarum (HG) and the impact on their families.

Members agreed to write to the All Wales Medicines Strategy Group (AWMSG) to strongly urge it to reconsider the earlier decision and keep looking at this issue, highlighting the petitioners' evidence and emphasising that cost should not be the determining factor.

The Committee also agreed to share all the evidence provided by the petitioners on prescribing Xonvea and maternal health more broadly, with you as Chair of the Health and Social Care Committee, for information.

The petition will remain open pending a response from the AWMSG.

The full details of the Committee's consideration of the petition, including the correspondence and the actions agreed by the Committee can be found here: [P-06-1550 Place the drug Xonvea on to the fomulary for the management of nausea and vomiting in pregnancy](#)

I would be grateful if you could send any response by e-mail to the clerking team at petitions@senedd.wales

Yours sincerely

Carolyn
