

P-04-444 : Dig for Victory

Petition wording:

We call on the National Assembly for Wales to urge the Welsh Government to introduce via local Councils a modern day Dig for Victory campaign.

With food prices continually rising and times of a recession, there is a need once more to grow your own food, just like during ww2 when they introduced a Dig for Victory campaign to make sure everyone was fed. If the Welsh Government introduced this via their local councils by giving householders vouchers or seeds, compost, even chicken arks and chickens (where suitable) then people would be a little better off financially and also healthier. It would also cut down on the amount of food we import thus cutting down on our carbon footprint. Most people have a garden and people without one can still grow some veg on patios and balconies. So come on lets Dig for Victory.

Petition raised by: Plaid Cymru Aberavon.

Date petition first considered by Committee: 15 January 2013
