

Consultation on petition P-03-262 Wales Peace Institute
Response from Maria Pizzoni

To whom it may concern,

I am very interested in the proposal for a Peace Institute in North Wales. Peace and associated issues of the armaments industry , disarmament, nuclear weapons, defence etc. are such emotive subjects and open to misinformation and manipulation. it would be very useful to have a body who are trying to gather facts and disseminate information. it would be a great symbol of Wales' intentions for it's people and hopes for the global situation. We need more discussions about how we can defend ourselves without aggression, how we can spread conciliation and reconciliation and other matters that are at the core of our National identity and our humanity.

We need to have a focal point for scientists and thinkers in all fields to come together and apply their expertise and minds to an enduring and living peace for all.

Many thanks
Maria Pizzoni
