Welsh Government's Second Annual Report on Climate Change

Thank you for your letter of 16th December 2013 regarding preparations for the Committee's proposed scrutiny of climate change action in Wales. I welcome the opportunity to discuss the Welsh Government's progress on tackling the causes and consequences of climate change.

With regard to your request for the data used to calculate performance against the targets, please find the following links to:

Greenhouse gas inventory

The data that we use to compile the targets is from the published Greenhouse Gas Inventory for Wales, which can be found on the UK Government sponsored National Atmospheric Emissions Inventory website.

http://naei.defra.gov.uk/reports/reports?report_id=756

Method

Earlier this year we published the method paper which explains how we use the data to calculate our 3% target. The publication can be found on the Welsh Government website at the below link:

<http://wales.gov.uk/topics/environmentcountryside/climatechange/publications/?lang=en>

Technical Annex

We will also very shortly be publishing a Technical Annex to the Annual Report which gives further details on our emission reduction performance indicators.

A handwritten signature in black ink, appearing to read 'Alun Davies', with a stylized flourish at the end.
