P-04-555 Stop the unethical and draconian proposed compulsory

microchipping of dogs

Petition wording:

We call on the Welsh Assembly to urge the Welsh Government to stop their

proposed planned compulsory microchipping of dogs. Microchipping of dogs

has not been proven to be more effective, cheaper or kinder to dogs. It has

proven to be far more expensive than normal methods such as tattooing or

permanent tags, is intrusive and brings in to question basic animal rights

and ethics. There is also increasing evidence that chips can cause cancer in

animals. A collar with a tag is by far the easiest and most effective way of

reuniting a dog and its owner- anyone who can read can use this system.

According to campaign groups such as ChipMeNot, there would also be a

real environmental impact from microchips due to the chips themselves, the

need for readers, batteries for each reader, the computers to administer the

database and so on.
