Wayne Griffiths	Patient

8.00am Introductions and welcome – Julie Morgan AM

8.05am Presentation on The Wales Cancer Research Centre - Libby Batt and Professor John Chester

8.30am Discussion on how we can work together with the Centre – All

Annie Mulholland asked about access to clinical trials in England, and there was an interesting discussion on whether, as we now have presumed consent for organ donation, could we also develop presumed consent for access to cancer tumours to help with the development of personalised stratified medicine etc.

9.00am close
