Constitutional and Legislative Affairs Committee

CLA678 - The Environmental Permitting (England and Wales) (Amendment) Regulations 2016

Procedure

Composite Negative

Background

These composite Regulations amend the Environmental Permitting (England and Wales) Regulations 2010 to take account of new EU requirements relating to certifying and testing petrol vapour recovery equipment.

Technical Scrutiny

One point is identified for reporting under Standing Order 21.2(ix) in respect of this instrument, in that it is not made or to be made in both English and Welsh.

This is a composite instrument, and is made in English only. The Committee notes the explanation in the Explanatory Memorandum to the Regulations, which states:

“These composite regulations will apply to England and Wales and are subject to negative resolution procedure in the National Assembly for Wales and in both Houses of the UK Parliament. Because the Regulations will be subject to UK Parliamentary scrutiny, it is not considered reasonably practicable for this instrument to be made or laid bilingually.”

Merits Scrutiny

No points are identified for reporting under Standing Order 21.3 in respect of this instrument.

Government Response

These composite Regulations will apply to England and Wales and are subject to negative resolution procedure in the National Assembly for Wales and in both Houses of the UK Parliament. Because the Regulations will be subject to UK Parliamentary scrutiny, it is not considered reasonably practicable for this instrument to be made or laid bilingually.
