

I don't know if you are aware of the expenses situation concerning Neil Hamilton. A succinct blog is available here [1]

I would like to express my indignation that the Assembly expenses system would not only acknowledge but extend the system to accommodate a representative of Wales who cannot be bothered to live in Wales!

If he is serious about his position in the Assembly then he should move accordingly.

If he is not serious then he should resign and let his position be accommodated by an AM prepared to give Wales the representation it deserves.

Please, do not let this situation go unopposed!
