Ymateb gan G Wood / Evidence from G Wood

I am very unhappy about the proposed roll out of 4G to cover the entirety of the country. This is a bio-active, WHO 2B carcinogen and will leave those of us who are electro-sensitive nowhere to go. How do we function? As you know the Council of Europe has asked for white zones for the vulnerable.

Please put aside all the half-truths and tendentious information you have probably been fed. I invite you to take evidence from me personally as a person severely affected by this type of RF radiation.

Yours faithfully,

G Wood
