Dear Huw

I note your letter dated 12 April 2017 with regard to the CLAC Committee's intention to produce a Bill on the appointment and accountability of commissioners.

You will appreciate the potential pressure that any legislation arising out of the UK Government's proposed repeal Bill will place on the National Assembly for Wales and the priority that this will need to take.

I would be grateful if you could keep us up to date with your proposals.

Yours sincerely
