

## **The Seed (Miscellaneous Amendments) (Wales) Regulations 2017**

The 'Merits Scrutiny' element of the report makes two time points both of which are accepted. Regarding the first, the amendment is limited to the change of the botanical name of a ryegrass and is not, in itself, anticipated to have a substantive impact. Regarding the second, the deadline was missed due to a number of delays during the process through which the Regulations were produced.
