

Russell George AM
Chair – Economy, Infrastructure and Skills Committee
National Assembly for Wales

5 December 2017

Dear Russell,

Challenges of Digitalisation

The Public Accounts Committee has been considering the challenges of digitalisation with the Permanent Secretary over the last few months and discussed her letter of 17 November to me (copy enclosed) during Committee on 27 November.

The Permanent Secretary advises, in paragraph 4, that Julie James AM, Leader of the House and Chief Whip's portfolio includes responsibility for digital matters. Julie James has confirmed that she would be happy to appear before the appropriate Committee to explore the challenges of digital in more detail.

The Committee would be grateful if you could schedule a session in with Julie James in the New Year to explore the points raised in the Permanent Secretary's letter further and if you can also keep us up to date with developments.

Yours sincerely,

Nick Ramsay AM
Chair
