

Welsh people should have a Welsh service in every area of Wales. There are going to be good time and strong understanding. I want to have understanding and good times ahead.

I speak Welsh and live in the Neath Swansea area, there aren't any Welsh speaking services here but I don't want to move house. I think there should be a Move-on day service in: Llanelli; Wrexham; and Bridgend – even Pontarddulais.

I think there should be services which are Welsh speaking in Neath. There should be shops and coffee shops in Swansea which are bi-lingual and have a sign to say that they are.

I think 80% of people, staff and servers users, in day service in Wales, should try to understand Welsh.

I want a service to be sharp, super cool (calm) and suit me right down to the ground.

I want to go back to Neath Port Talbot College Group, but I don't want Gower College or Coleg Sir Gar, I experienced a bad attitude and bad manners there.

I want a very high quality of service, I need to have a lot of colours in the service. I want a very safe service. I want a computer and internet, sofas and a clock.

I want to stay in Lonlas and New Mill Court for the next 30 years but in the future I would like to go back to Glamorgan House because I like going on my bike there and producing woodwork.
