

P-03-307 Design for Innovation in Wales

Petition wording

We call upon the National Assembly for Wales to urge the Welsh Assembly Government to consider the potential significant role for design in future innovation, public service and social enterprise policies and programmes. This is in the light of increased commitment to design agenda by other nations around the world and in preparation for a new Innovation Policy due to be published by the European Commission. This imminent new policy is likely to include a broader definition of innovation that embraces services in the public & private sectors and social enterprise on equal terms with traditional research and development (R&D).
