3 July 2018

Dear Dai

At the evidence session on physical activity in children and young people at the Health, Social Care and Sport Committee meeting on 13 June, I undertook to provide you with additional information on the task and finish group that is currently looking at community-focused schools.

The group is considering what the barriers are to being able to ensure that school facilities are available for use by the wider community and not just the school.

The overall aim of the group is to identify necessary actions and make recommendations in respect of:

- identification of any barriers to the implementation of identified actions and the means to overcome them;
- funding implementation of the actions; and
- dissemination of good practice in respect of community use of assets.

The group's work will support development of updated guidance which will include reference to solutions to commonly-perceived barriers to implementation. It is anticipated that this guidance will be published in 2019.

Yours sincerely

Kirsty Williams AC/AM
