Question	Answer
01	<p>Yes</p> <p>We support that the definition should be linked to the WHO definition.</p> <p>However, we remain concerned at the potential unintended consequence of taking support away from other neurodevelopmental disorders, and believe it is important that the Welsh Government is able to broaden the definition.</p>
02	<p>Yes</p> <p>We believe this approach is necessary to enhance flexibility.</p>
03	Yes
04	No
05	Support
06	Support
07	Support
08	There needs to be mechanisms for support to occur, while a person is waiting for a diagnosis based on need, rather than depending on a diagnosis. This may include additional support for schools or extra help with care.
09	<p>Yes</p> <p>Assessment should be linked to needs rather than based on a diagnosis. There should be assessments based on need prior to this and additional support for schools and carers, which is based on need rather than a diagnosis while the person is waiting for a diagnosis and this support should continue based on need even if there is no diagnosis of autism.</p>
10	<p>Yes</p> <p>This list should not be exclusive and it should be specified that it should be done by a Multi Disciplinary Team</p>
11	<p>Paediatrician</p> <p>Educational Psychologist</p> <p>Specialist learning disability nurse</p>
12	Physical disability

	Sensory impairment including visual or hearing loss.
13	Yes
14	Support that is set up initially How long it took to set it up What support could not be provided that was advised How patient / family / carer felt about the support
15	It should be written in the guidance. This enables it to be modified and updated more easily
16	Yes LHBs SS Schools and colleges Employees Voluntary organisations
17	It should happen every 3 years. Potentially better impact and linked to review of services
18	Good generally
19	We still have concerns that the emphasis on autism will distract from needs of children and adults who have special needs below the threshold for a diagnosis of autistic spectrum disorder and those with other neurodevelopmental disorders. With regard to
