#### **Commentary**

Assembly Legal Services agree with the purpose and impact of these Regulations, as set out in the Welsh Government's notification.

As to the reasons why the Welsh Government think it is appropriate that these UK Government Regulations include devolved provisions, Members may wish to consider the following paragraph of the notification:

“Consent has been given for the UK Government to make these corrections in relation to, and on behalf of, Wales for reasons of efficiency, expediency and due to the technical nature of the amendments. The amendments have been considered fully; and there is no divergence in policy. These amendments are to ensure that the statute book remains functional following the UK's exit from the EU. This is in line with the principles for correcting agreed by the Cabinet Sub-Committee on European Transition in May.”
