### **Any impact the SI may have on the Assembly's legislative competence and/or the Welsh Ministers' executive competence**

Pesticides are a matter in which the National Assembly has legislative competence but in which the Welsh Ministers do not have functions.

These Regulations contain provisions which enable the Welsh Ministers to exercise functions in relation to Wales without encumbrance and for the Welsh Ministers to provide consent to the Secretary of State to exercise functions in relation to Wales. They also contain provisions which enable the Welsh ministers to exercise functions jointly with parties including the Secretary of State.

Functions transferred to the Secretary of State with consent or jointly would constitute functions of a Minister of the Crown for the purposes Schedule 7B to GoWA 2006. This therefore may be a relevant consideration in the context of the Assembly's competence to legislate in the future in these areas.

### **The purpose of the amendments**

Plant protection products are 'pesticides' that protect crops or desirable or useful plants, regulate plant growth or prevent growth of unwanted plants. They are primarily used in the agricultural sector but also in forestry, horticulture, amenity areas and in home gardens. For example, they play a fundamental role in UK farming and the provision of food, keeping the transport infrastructure clear of weeds, maintaining public spaces and controlling invasive species. However, as plant protection products contain chemicals that are designed to disrupt life processes, risks can be associated with their use.

The changes made by these Regulations will ensure plant protection products will continue to be effectively managed after EU Exit. This will enable the UK to have an operable regulatory framework after EU exit to ensure that plant protection products continue to pose no unacceptable risks to humans or the environment, whilst facilitating production of affordable food and trade in food produce.

This Statutory Instrument and accompanying Explanatory Memorandum, setting out the effect of amendments is available here: [h https://beta.parliament.uk/work-packages/IWErGmOz](https://beta.parliament.uk/work-packages/IWErGmOz)

**Why consent was given**

Consent has been given for the UK Government to make these corrections in relation to, and on behalf of, Wales for reasons of efficiency, expediency and no policy divergence with the amendments. The amendments have been considered fully; and there is no divergence in policy. These amendments are to ensure that the statute book remains functional following the UK's exit from the EU.
