

Dr Andrew Goodall
Director General Health and Social Services/
NHS Wales Chief Executive Health and Social Services
Group
Welsh Government

15 March 2019

Dear Dr Goodall

Informatics Systems in Wales

Thank you for your letter of 20 February which was considered by the Public Accounts Committee on 11 March.

Members were pleased to note the review of infrastructure and system design that is due to report back at the end of March together with the report on the review of informatics governance in NHS Wales which recommends a number of radical actions for consideration over the short and medium term.

The Committee wishes to receive an update on the various reports and reviews outlined in your letter as at the end of June to enable us to consider the current position before the summer recess. We will take evidence on the improvements being implemented to this service in the autumn term. The Clerks will contact your office to arrange a date for the evidence session in due course.

Yours sincerely,

Nick Ramsay AM
Chair
