

Mike Hedges AM  
Chair of the Climate Change, Environment and Rural Affairs  
Committee

25 March 2019

Dear Mike,

You will be aware that the Welsh Government published its first carbon budget plan – Prosperity for Wales: A Low Carbon Wales – on Thursday 21 March 2019.

The Economy, Infrastructure and Skills Committee has been keenly awaiting this publication in order to conduct some scrutiny of the aspects relevant to our portfolio – particularly how it addresses decarbonisation of transport and carbon-intensive industries.

I am aware that CCERA is planning a more in-depth scrutiny of the plan as a whole, but I wanted to inform you that EIS will be scrutinising the Minister for Economy and Transport at two of our meetings during May. I hope this work, and any outputs we produce arising from it, will be able to feed in to your wider scrutiny of the action plan.

Best wishes,

Russell George  
Chair, Economy, Infrastructure and Skills Committee
