Inquiry into the provision of health and social care in the adult prison estate

Ymateb gan unigolyn

Response from an individual

I note that submissions need to be in by 10 days from now.

The provision of health care attention to residents of HMP Berwyn is having an impact on the whole population of North East Wales.

When inmates arrive at A&E and 'jump' the queue it causes distress to those who have been waiting in pain for, sometimes, many hours.

Seeing a detainee walking the corridors handcuffed to 2 Prison Staff is also disconcerting for an already stressed outpatient or visitor.

Being treated in a mixed ward alongside someone handcuffed to a bed in 21st Century is not acceptable. And all before the establishment is half full.
